ABOUT US

10 Years

Changya Newmaterial Technology Co., Ltd. was founded in **2013**

2 Factories

Factories in both **Ningbo & VietNam**

200 Thousand Square meters

More than **200,000 Square meters** Production area

160 Million USD

Changya's expecting to reach **160 million USD** revenue in 2022.

Changya Newmaterial Technology Co., Ltd. was founded in 2013, and the group is headquartered in Ningbo, China. It is a limited liability company integrating R&D, production and sales. The company mainly produces paper, PLA & Plastic disposable tableware, such as straw, cutlery, microwaveable box, hinged box, cup, carry out bag, plate, dinning kit, etc.

Changya Newmaterial Technology Co., Ltd. has developed rapidly since its establishment, a growth rate over 30% each year, and has now become a leading enterprise in the field of high-quality disposable food and kitchen supplies in China. Changya products are mainly sold in the international market, and more than 90% of the products are exported to many regions such as Europe, the United States and Australia. Changya adopts strict quality control standards for its products, and has won a variety of international certifications, including BRC, GMP NSF, ISO 22000, GMP, and it has passed LFGB, FDA and other food safe tests. At the same time, it is a member of the international human rights organizations BSCI and Sedex. It has wide recognition and good reputation in the international.

Factory view

Factory view

Changya actively responded to the call of "going abroad" and opened a branch in Vietnam in 2017. The first phase of the production base in Vietnam was completed and put into use in December 2018, and the second phase was completed in December 2020. Upon completion, the two bases have a total area of 65,000 square meters. At that time, Changya Newmaterial will greatly reduce labor costs and land costs, and complete a significant leap in production capacity and company scale. As of September 2022, the company has more than 2,000 employees, 2 production bases have been built and put into operation, and 2 more are in building, Changya's expecting to reach 160 million USD revenue in 2022.

Changya Group believes that the earth's ecology is a sustainable future that requires the joint efforts of all mankind. With the rise of express delivery, food delivery, and fast living, the "white crisis" has become an ecological problem that the entire society must face together. As a manufacturer in the new material industry, Changya will build a full line of production and manufacturing of biodegradable products. Focusing on the trinity of earth ecology, industry ecology, and enterprise ecology, we will build a sustainable industry ecology.
