

Electronic control system cat

www.cnstandingdesk.com

WN-1

Main Functions

- Self-setting mechanical height position
 - Rebound when blocked
 - 4 sets of position memory
 - LED digital tube display
 - CM \leftrightarrow inch
 - Multi-protection: Overcurrent protection/Overheat protection/Low voltage protection/
Power down protection/Open circuit protection
 - Size: 127*25*18mm
-

Expansion Introduction

- As a factory standard option, 2/3 stages
- Meet most desk frame requirements
- Use stickers as control panel
- Easy to meet LOGO printing needs
- Stable performance and minimalist design

WN-2

WN-2U

Main Functions

- Self-setting mechanical height position
 - Rebound when blocked
 - 3 sets of position memory
 - LED digital tube display
 - CM \leftrightarrow inch
 - Multi-protection: Overcurrent protection/Overheat protection/Low voltage protection/
Power down protection/Open circuit protection
 - USB charging port optional (18W / Type-A)
 - Size: 120*20*17mm
-

Expansion Introduction

- Meet most desk frame requirements
- Use of recessed pot buttons with good touch feel
- Not available as a required option for LOGO customization
- Small and beautiful design

WN-3

Main Functions

- Self-setting mechanical height position
- Rebound when blocked
- UP&DOWN keys
- Size: 63*33*10mm

WN-4

Expansion Introduction

- Mostly used for simple model configurations and podium desks
- Not available as a required option for LOGO customization

WN-5

Main Functions

- Self-setting mechanical height position
 - Rebound when blocked
 - 3 sets of position memory
 - Multi-protection: Overcurrent protection/Overheat protection/Low voltage protection/
Power down protection/Open circuit protection
 - USB charging port optional (18W / Type-A) / DC 24V
 - Size: 142*45*20mm
-

Expansion Introduction

- Only for single motor standing desk
- All-in-one built-in controller / External power adapter
- Support LOGO customization (laser marking)
- Piano key & Backlighting design style

Main Functions

- Self-setting mechanical height position
 - Rebound when blocked
 - 3 sets of position memory
 - LED digital tube display
 - Multi-protection: Overcurrent protection/Overheat protection/Low voltage protection/
Power down protection/Open circuit protection
 - Size: 142*45*20mm
-

WN-6

Expansion Introduction

- Only for dual motor standing desk
- All-in-one built-in controller / External power adapter
- Support LOGO customization (laser marking)
- Piano key & Backlighting design style

Main Functions

- Wireless Remote Control (MAX: 500cm)
- Self-setting mechanical height position
- UP&DOWN keys
- Size: 125*47*17mm
- The rest of the functions depend on the control box

WN-7

Expansion Introduction

- Only for TV frame
- Support LOGO customization (laser marking)

RS-1

Main Functions

- Self-setting mechanical height position
 - Rebound when blocked
 - 4 sets of position memory
 - LED digital tube display
 - Multi-protection: Overcurrent protection/Overheat protection/Low voltage protection/
Power down protection/Open circuit protection
 - Size: 135*25*22mm
-

Expansion Introduction

- Self-designed model, 2/3 stages
- Better price/performance ratio
- Traditional form of individual buttons
- Support LOGO customization (laser marking)
- Classic appearance design, wide audience

XBL-1

Main Functions

- Self-setting mechanical height position
 - Rebound when blocked
 - 3 sets of position memory
 - LED digital tube display
 - Multi-protection: Overcurrent protection/Overheat protection/Low voltage protection/
Power down protection/Open circuit protection
 - Size: 137*42*16mm
-

Expansion Introduction

- Only for dual motor standing desk
- All-in-one built-in controller / External power adapter
- Mostly used in specific styles
- Not available as a required option for LOGO customization
- Piano key design style

XBL-2

Main Functions

- Self-setting mechanical height position
 - Rebound when blocked
 - 2 sets of position memory
 - Multi-protection: Overcurrent protection/Overheat protection/Low voltage protection/
Power down protection/Open circuit protection
 - Size: 100*30*20mm
-

Expansion Introduction

- Only for single motor standing desk
- All-in-one built-in controller / External power adapter
- Not available as a required option for LOGO customization
- Piano key & Backlighting design style

XBL-3

Main Functions

- Self-setting mechanical height position
 - Rebound when blocked
 - 4 sets of position memory
 - LED digital tube display
 - CM \leftrightarrow inch
 - Multi-protection: Overcurrent protection/Overheat protection/Low voltage protection/
Power down protection/Open circuit protection
 - Size: 135*25*22mm
-

Expansion Introduction

- Meet most desk frame requirements
- Support LOGO customization (laser marking)
- Classic appearance design, wide audience
- Silent soft padded keys, good hand feeling
