ROAD & EMERGENCY SAFETY

www.greateaglesafety.com

2025-2026

Company Profile

After almost 30 years GreatEagle has evolved into an R&D driven enterprise specializing in production and customer service. Since 1997 the mission has remained the same to be an expert in personal protective equipment, building materials and hardware products. Through its establishment of in-house production lines across multiple safety categories the company has shown its commitment to quality and simplified supply chain solutions. Through the development of innovative technology paired with strict quality control, GreatEagle helps brands to increase their competitiveness.

Item Code: TC001

Product Name: **PE traffic cone**
 Height : 50cm / 75cm / 100cm
 Material: **PE+RUBBER/BLACK PVC**
 Base Size: 28x28cm / 38x38cm / 48x48cm
 Reflective Collars: 10cm / 22cm / 32cm
 Weight: 1.5kg / 2.5kg / 5.0kg
 7kg / Open Top 5.5 kg (100cm)

Features:

- Classic and attractive appearance
- The cone tube is bright red and UV resistant.
- Highlighting reflective tape to improve visibility
- Rubber base, able to stand stably even in strong winds and heavy traffic.

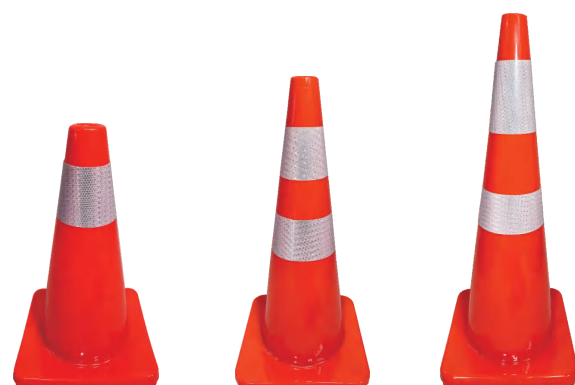

Item Code: TC005

Product Name: **Sand filled traffic cone**
 Height : 50cm
 Material: **PE**
 Base Size: 27.5x27.5 cm
 Reflective Collars: 10cm
 Weight: 0.25/1.0 kg

Features:

- Integrated molding, the base can be filled with sand to increase stability
- Lightweight, easy to handle and store.
- Good UV resistance, fade resistance and aging resistance
- Highlight reflective tape to improve visibility and keep away from danger.

Item Code: TC100

Product Name: **PVC traffic cone**
 Height : 45cm / 45cm / 45cm / 70cm / 90cm
 Material: **PVC**
 Base Size: 26.5x26.5 / 27x27 / 27x27 / 35x35 / 38x38cm
 Reflective Collars: 8cm/8cm/10cm/10+10cm/15+10cm
 Weight: 0.8kg / 1.0kg / 1.1kg / 1.8kg / 3.3kg

Features:

- Bright fluorescent orange provides good visibility.
- UV resistant, anti-aging and durable
- Strong pressure resistance, waterproofing, and weather resistance
- Highlighting reflective tape enhances warning effect

Item Code: TC101

Product Name: **PVC traffic cone**
 Height : 50cm
 Material: **PVC**
 Base Size: 30x30cm
 Reflective Collars: 10+10cm
 Weight: 1.0 kg

Features:

- Fade Resistant, Bright Orange Color
- High Visibility
- Wind-Resistant Design
- Durable and Pliable

Item Code: TC102

Product Name: **PVC traffic cone**
 Height : 75cm
 Material: **PVC+Black PVC**
 Base Size: 37x37cm
 Reflective Collars: 10+10cm
 Weight: 2.5kg

Features:

- Bright fluorescent orange provides good visibility.
- UV resistant, anti-aging and durable
- Strong pressure resistance, waterproofing, and weather resistance
- Highlighting reflective tape enhances warning effect
- Excellent performance under extreme weather conditions

Item Code: TC104

Product Name: **PE traffic cone**
 Height: 70cm
 Material: **PVC+Black PVC**
 Base Size: 35x35cm
 Reflective Collars: 10+10cm
 Weight: 2.4kg

Features:

- Bright fluorescent orange provides good visibility.
- UV resistant, anti-aging and durable
- Strong pressure resistance, waterproofing, and weather resistance
- Highlighting reflective tape enhances warning effect
- Excellent performance under extreme weather conditions

Item Code: TC103

Product Name: **PVC traffic cone**
 Height : 45CM / 70CM / 70CM / 90CM
 Material: **PVC+Black PVC**
 Base Size: 27.5x27.5cm / 35x35cm / 35x35cm / 37x37cm
 Reflective Collars: 15cm/25cm/25cm/25cm
 Weight: 1.5kg / 2.7kg / 3.2kg / 4.5kg

Features:

- Bright fluorescent orange provides good visibility.
- UV resistant, anti-aging and durable
- Strong pressure resistance, waterproofing, and weather resistance
- Highlighting reflective tape enhances warning effect
- Excellent performance under extreme weather conditions

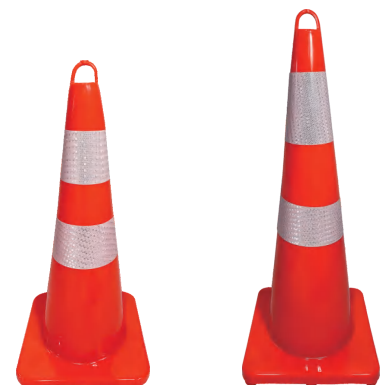

Item Code: TC005

Product Name: **PVC traffic cone**
 Height : 45cm / 70cm / 90cm
 Material: **PVC+Black PVC**
 Base Size: 33x33cm / 37x37cm
 Reflective Collars: 15cm / 15+10cm / 15+10cm
 Weight: 1.5kg / 3.2kg / 4.5kg

Features:

- Bright fluorescent orange provides good visibility.
- UV resistant, anti-aging and durable
- Strong pressure resistance, waterproofing, and weather resistance
- Highlighting reflective tape enhances warning effect
- Excellent performance under extreme weather conditions

Item Code: TC106

Product Name: **PVC traffic cone**
 Height : **70cm / 90cm**
 Material: **PVC**
 Base Size: **33x33cm / 36x36cm**
 Reflective Collars: **10+10cm / 15+10cm**
 Weight: **1.65kg / 3.0kg**

Features:

- Fade Resistant, Bright Orange Color
- High Visibility
- Wind-Resistant Design
- Durable and Pliable

Item Code: TS001

Product Name: **Warning Post**
 Height : **115CM**
 Material: **PE(bollard)+Rubber(base)**
 Base Size: **42X42CM**
 Reflective Collars: **25x33CM**
 Weight: **6KG/8KG**

Features:

- PE Rubber Delineator Post is Made of PE Body and Rubber Base, can be more flexible in the practical use.
- Warn the drivers effectively, even if the vehicles bump the warning post, there will not exist the second hurt.
- These post are the perfect size for most applications.

Item Code: TS005

Product Name: **Warning Post**
 Height : **75cm**
 Material: **PE**
 Base Size: **20cm**
 Reflective Collars: **7cmx3**
 Weight: **0.6kg**

Features:

- Made from special PE to be light and flexible in the use.
- Bright colors with reflective bands for increased night visibility.
- Widely used on the roads of the city, pavement or used as separator of constructions.

Item Code: TS007

Product Name: **Warning Post**
 Height : **80cm**
 Material: **PE+Rubber/Black PVC**
 Base Size: **26cm**
 Reflective Collars: **32.5x34cm**
 Weight: **2.2kg**

Features:

- Pressure-resistance
- Anti-impact
- Crash-resistance
- Auto spring back

Item Code: TS008

Product Name: **Warning Post**
 Height : **120cm**
 Material: **PE+Rubber/Black PVC**
 Base Size: **26cm**
 Reflective Collars: **32.5x50cm**
 Weight: **2.6kg**

Features:

- Pressure-resistance
- Anti-impact
- Crash-resistance
- Auto spring back

Item Code: TS015

Product Name: **Warning Post**
 Height : **75cm**
 Material: **PU**
 Base Size: **20cm**
 Reflective Collars: **7cmx3**
 Weight: **0.8kg/1.3Kg**

Features:

- Be able to bear severe temperature, high pressure, folding and winding resistance.
- It can go back to the original state very quickly after be impacted by force for thousands of times.
- Can be installed in numerous manners and will withstand continuous impacts with vehicles.

Item Code: TS012

Product Name: **Warning Post**
 Height : **75cm**
 Material: **PE**
 Base Size: **20cm**
 Reflective Collars: **7cmx3**
 Weight: **0.55kg**

Features:

- Made from special PE to be light and flexible in the use.
- Painted with bright colors with reflective bands for increased night visibility.
- Widely used on the roads of the city, pavement or used as separator of constructions.

Item Code: TS017

Product Name: **Traffic Lane Separators**
 Height : **110cm**
 Material: **PE+Black PVC**
 Base Size: **45x56cm** Panel Width: **32cm**
 Reflective Collars: **18.5x83cm(two-sided)**
 Weight: **10kg**

Features:

- Consisted of pp, rubber or other materials combined with rubber base
- High bright color
- To be removed away without traces

TRAFFIC CONE CONNECTOR

Item Code: PS016

Product Name: **Plastic Chain**

Diameter: **4mm / 6mm / 8mm / 10mm**

Material: **PE**

Loop Size: **27x16mm / (25x22mm / 27x20mm / 41x21mm)
/ (38x27mm / 54x27mm) / 55x38mm**

Weight per meter: **40g / 65g / 60g / 110g / 106g / 185g**

Cross section: **Round / Flat / Round**

Features:

- LightWeight
- Bright Colors
- Anti-Rust and Anti-Corrosion
- Customized

Item Code: TB002

Product Name: **Portable Expandable Barrier**

Material: **PE**

Height: **970mm**

Bottom width: **390mm**

Fold Length: **240mm**

Expand Length: **2500mm**

Weight: **2.5kg**

Features:

- Compact and lightWeight.
- Can quickly expand and close
- Non-corrosive construction suited to both indoor and outdoor use.
- Easily transported by one person.
- Can be linked together to form a continuous heavy duty barrier.

Item Code: TB001

Product Name: **Retractable Traffic Cone Bar**

Telescoping Cone Bars

Outer tube Diameter: **34mm / 40mm**

Inner tube Diameter: **29mm / 35mm**

Material: **PVC+PE**

Loop Size: **75mm/80mm(Diameter)**

length: **1.3m / 2.2m**

Features:

- Black and Yellow Stripes for Visual Intensity.
- Not Deform at High Temperatures
- Expandable Length
- Light Weight and Extremely Portable

Item Code: SH001

Product Name: **Speed bumps**

Height : **40mm / 50mm**

Material: **Rubber**

Middle section Size: **1000x350mm / 1000x350mm**

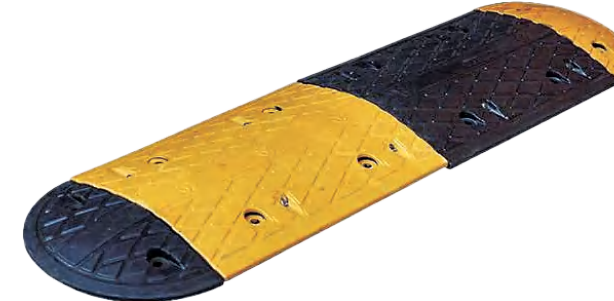

End Cap Size: **170x350mm / 175x350mm**

Weight: **7.5kg / 9.5kg**

Features:

- Made of high-quality rubber, it conforms to the contour of the road surface and durable.
- Easy to install on roads, effectively reducing speed and accident risks
- Will not shatter, break or crack, with low maintenance costs.
- Detachable and spliced, with flexibility, suitable for any size of road.

SPEED BUMPS

Item Code: SH002

Product Name: **Speed bumps**

Height : **50mm**

Material: **Rubber**

Middle section Size: **500x350mm**

End Cap Size: **170x350mm**

Weight: **10.5kg**

Features:

- Made of high-quality rubber, it conforms to the contour of the road surface and durable.
- Easy to install on roads, effectively reducing speed and accident risks
- Will not shatter, break or crack, with low maintenance costs.
- Detachable and spliced, with flexibility, suitable for any size of road.

Item Code: SH004

Product Name: **Speed bumps**

Height : **70mm / 70mm**

Material: **Rubber**

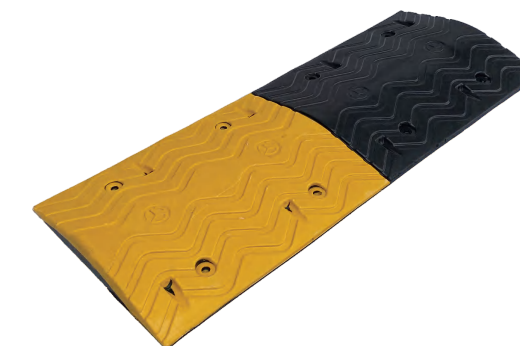

Middle section Size: **1000x350mm / 1000x350mm**

End Cap Size: **175x350mm / 175x350mm**

Weight: **12kg / 13.5kg**

Features:

- Made of high-quality rubber, it conforms to the contour of the road surface and durable.
- Easy to install on roads, effectively reducing speed and accident risks
- Will not shatter, break or crack, with low maintenance costs.
- Detachable and spliced, with flexibility, suitable for any size of road.

Item Code: SH003

Product Name: **Speed bumps**

Height : **50mm / 50mm**

Material: **Rubber**

Middle section Size: **1000x380mm / 1000x380mm**

End Cap Size: **175x380mm / 175x380mm**

Weight: **10kg / 12.5kg**

Features:

- Made of high-quality rubber, it conforms to the contour of the road surface and durable.
- Easy to install on roads, effectively reducing speed and accident risks
- Will not shatter, break or crack, with low maintenance costs.
- Detachable and spliced, with flexibility, suitable for any size of road.

Item Code: SH006

Product Name: **Speed bumps**

Height : **50mm**

Material: **Rubber**

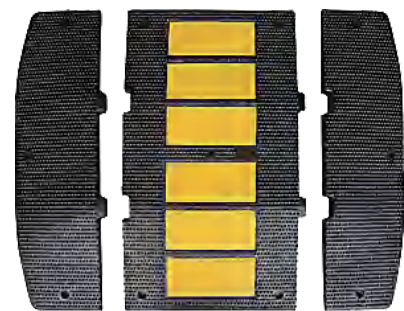

Middle section Size: **1000x300mm**

End Cap Size: **150x300mm**

Weight: **10kg**

Features:

- Made of high-quality rubber, it conforms to the contour of the road surface and durable.
- Easy to install on roads, effectively reducing speed and accident risks
- Will not shatter, break or crack, with low maintenance costs.
- Detachable and spliced, with flexibility, suitable for any size of road.

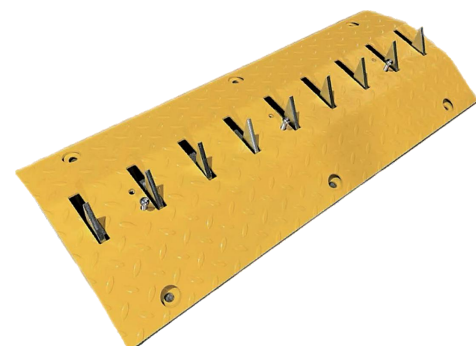

Item Code: SH014

Product Name: **Speed bumps**
 Height : **50mm**
 Material: **Rubber**
 Middle section Size: **500x900mm**
 End Cap Size: **250x900mm**
 Middle section Weight: **14.5kg** End cap Weight: **10.5kg**

Features:

- Suitable for vehicles with speeds of 25km/h or lower in areas with heavy traffic.
- It is quieter and more comfortable than speed bumps.
- Durable vulcanized rubber will not shatter or crack.
- Multiple connections can be made together to create the desired width
- Easy to install, disassemble, and reuse

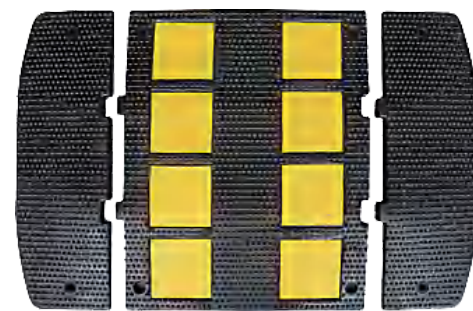

Item Code: SH039

Product Name: **Cast steel speed bump**
 Height : **50mm**
 Material: **Q235 Steel**
 Middle section Size: **1000x380mm**
 Middle section Weight: **19kg**

Features:

- Can withstand conventional vehicles weighing 40 tons.
- Easy to install modular design
- The bright yellow color is clearly visible during the day, and the powerful reflector provides nighttime warning.
- Create a safer environment for pedestrians.

Item Code: SH015

Product Name: **Speed bumps**
 Material: **Rubber** Height: **32mm / 50mm**
 Middle section Size: **500x600mm / 500x600mm**
 End Cap Size: **500x600mm / 500x600mm**
 Middle section Weight: **8kg / 14kg**
 End cap Weight: **6Kg / 8kg**

Features:

- Suitable for vehicles with speeds of 25km/h or lower in areas with heavy traffic.
- It is quieter and more comfortable than speed bumps.
- Durable vulcanized rubber will not shatter or crack.
- Multiple connections can be made together to create the desired width
- Easy to install, disassemble, and reuse

Item Code: SH040

Product Name: **Rubber and plastic Speed bumps**
 Height : **40mm**
 Material: **PVC**
 Middle section Size: **500x300mm**
 Middle section Weight: **3.8kg**

Features:

- Pressure and weather resistant design will not chip or crack.
- Eye-catching colors with reflective safety strips.
- Textured grip surface for increased traction.
- No objectional odor.

Item Code: PS001

Product Name: **Rubber Curb Ramp**
 Material: **Rubber**
 Length: **500mm**
 Width: **380mm**
 Height: **130mm**
 Weight: **9.5Kg**

Features:

- The anti slip surface ensures the safe passage of vehicles and pedestrians.
- This ramp is made of high-quality rubber, which is durable and can withstand the test of time and extreme weather.
- Widely applicable, very suitable for cars, trucks, wheelchairs, etc.
- Easy to install, with two reserved holes for permanent installation to improve stability.

Item Code: PS003

Product Name: **Rubber Curb Ramp**
 Material: **Rubber**
 Length: **1000mm**
 Width: **250mm**
 Height: **40mm**
 Weight: **8Kg**

Features:

- The anti slip surface ensures the safe passage of vehicles and pedestrians.
- This ramp is made of high-quality rubber, which is durable and can withstand the test of time and extreme weather.
- Widely applicable, very suitable for cars, trucks, wheelchairs, etc.
- Easy to install, with two reserved holes for permanent installation to improve stability.

Item Code: PS002

Product Name: **Rubber Curb Ramp**
 Material: **Rubber**
 Length: **500mm**
 Width: **380mm**
 Height: **140mm**
 Weight: **10Kg**

Features:

- The anti slip surface ensures the safe passage of vehicles and pedestrians.
- This ramp is made of high-quality rubber, which is durable and can withstand the test of time and extreme weather.
- Widely applicable, very suitable for cars, trucks, wheelchairs, etc.
- Easy to install, with two reserved holes for permanent installation to improve stability.

Item Code: PS004

Product Name: **Rubber Curb Ramp**
 Material: **Rubber**
 Length: **490mm**
 Width: **310mm**
 Height: **100mm**
 Weight: **10.5Kg**

Features:

- The anti slip surface ensures the safe passage of vehicles and pedestrians.
- This ramp is made of high-quality rubber, which is durable and can withstand the test of time and extreme weather.
- Widely applicable, very suitable for cars, trucks, wheelchairs, etc.
- Easy to install, with a portable ring that can be moved and repositioned at any time

WHEEL CHOCKS

Item Code: PS010

Product Name: **Wheel Chock**
Material: **Rubber**
Length: **200mm**
Width: **150mm**
Height: **150mm**
Weight: **1.9Kg**

Features:

- The sturdy oil resistant rubber structure can withstand a large amount of use.
- Two unique grip surfaces enhance stability
- Adopting a molded handle for easy operation and handling
- Multi functional, suitable for cars, trucks, and heavy machinery
- Low maintenance, easy to clean

Item Code: PS012

Product Name: **Wheel Chock**
Material: **Rubber**
Length: **300mm**
Width: **260mm**
Height: **150mm**
Weight: **5Kg**

Features:

- Anti slip ridges, strong grip
- UV resistant, oil resistant, salt resistant, and acid resistant, suitable for various environments
- Wide base, increasing stability and rigidity

Item Code: PS014

Product Name: **Wheel Chock**
Material: **Rubber**
Length: **240mm**
Width: **170mm**
Height: **200mm**
Weight: **4.0Kg**

Features:

- High-Quality Rubber Construction, not easy to crack or durable for a long time use.
- Designed to prevent vehicles from moving by keeping the wheel in place.
- The compact size allows for convenient park your car while will not take up too much space.
- Lightweight for easy pickup from ground.
- Bright colors can improve visibility and safety

Item Code: PS047

Product Name: **Wheel Chock**
Material: **HDPE**
Length: **470mm**
Width: **300mm**
Height: **230mm**
Color: **Yellow**
Weight: **2.1Kg**

Features:

- Safety color visibility
- Weather-resistant, lightWeight construction
- Resistant to oils, fuels and solvents
- Long service life

PARKING STOPPER

Item Code: DW-Q09

Product Name: **Parking Stopper**
Material: **Rubber**
Length: **1830mm**
Width: **150mm**
Height: **100mm**
Weight: **2Kg/14.5Kg/15Kg/16Kg**

Features:

- High resistance-pressure
- Easy to fix and maintenance
- The Yellow and Black colors make the products eye-catching
- Good malleability, never damage the vehicles.
- For Indoor and Outdoor Use

Item Code: DW-Q22

Product Name: **Parking Stopper**
Material: **Rubber / Black PVC**
Length: **1830mm**
Width: **150mm**
Height: **100mm**
Weight: **11Kg/12kg/13kg/14kg/15kg/16kg**

Features:

- High resistance-pressure
- Easy to fix and maintenance
- The Yellow and Black colors make the products eye-catching
- Good malleability, never damage the vehicles.
- For Indoor and Outdoor Use

Item Code: PS021

Product Name: **Parking Stopper**
Material: **Rubber**
Length: **560mm**
Width: **160mm**
Height: **100mm**
Weight: **4.5Kg**

Features:

- High resistance-pressure
- Easy to fix and maintenance
- The Yellow and Black colors make the products eye-catching
- Good malleability, never damage the vehicles.

Item Code: PS024

Product Name: **Parking Stopper**
Material: **Rubber**
Length: **560mm**
Width: **160mm**
Height: **100mm**
Weight: **4.0Kg**

Features:

- High resistance-pressure
- Easy to fix and maintenance
- The Yellow and Black colors make the products eye-catching
- Good malleability, never damage the vehicles.

PARKING STOPPER

Item Code: PS028

Product Name: **Parking Stopper**
Material: **Rubber**
Length: **600mm**
Width: **120mm**
Height: **100mm**
Weight: **3.5Kg**

Features:

- High resistance-pressure
- Easy to fix and maintenance
- The Yellow and Black colors make the products eye-catching
- Good malleability, never damage the vehicles.

Item Code: PS029

Product Name: **Parking Stopper**
Material: **Rubber**
Length: **900mm**
Width: **150mm**
Height: **100mm**
Weight: **7Kg**

Features:

- High resistance-pressure
- Easy to fix and maintenance
- The Yellow and Black colors make the products eye-catching
- Good malleability, never damage the vehicles.

Item Code: PS030

Product Name: **Parking Stopper**
Material: **Rubber+PVC**
Length: **560mm**
Width: **140mm**
Height: **90mm**
Weight: **3.7Kg**

Features:

- High quality synthetic materials
- Pressure resistant, non-destructive, and durable.
- The color is bright and eye-catching, not easy to fade.
- High brightness lattice reflective film, higher warning effect

Item Code: PS032

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **600mm**
Width: **100mm**
Thickness: **10mm**
Weight: **1.0Kg**

Features:

- Can withstand frequent collisions and impacts, protecting the corners of the wall from scratches and deformation.
- It has strong weather resistance, aging resistance and corrosion resistance, and is applicable to indoor and outdoor scenes.
- Engineering grade reflective film reflects light at night or in low light environments, reminding to maintain a safe distance and reduce blind spot collision accidents.
- Easy to install, compatible with various wall surfaces, and easy to maintain

CORNER GUARDS

Item Code: PS033

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **800mm**
Width: **100mm**
Thickness: **8mm / 10mm**
Weight: **1.9Kg / 2.2Kg**

Features:

- Can withstand frequent collisions and impacts, protecting the corners of the wall from scratches and deformation.
- It has strong weather resistance, aging resistance and corrosion resistance, and is applicable to indoor and outdoor scenes.
- Engineering grade reflective film reflects light at night or in low light environments, reminding to maintain a safe distance and reduce blind spot collision accidents.
- Easy to install, compatible with various wall surfaces, and easy to maintain

Item Code: PS034

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **900mm**
Width: **100mm**
Thickness: **9mm**
Weight: **2.0Kg**

Features:

- Can withstand frequent collisions and impacts, protecting the corners of the wall from scratches and deformation.
- It has strong weather resistance, aging resistance and corrosion resistance, and is applicable to indoor and outdoor scenes.
- Engineering grade reflective film reflects light at night or in low light environments, reminding to maintain a safe distance and reduce blind spot collision accidents.
- Easy to install, compatible with various wall surfaces, and easy to maintain

Item Code: PS035

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **800mm / 1000mm**
Width: **1000mm**
Thickness: **20mm**
Weight: **2.0Kg / 2.4Kg**

Features:

- Can withstand frequent collisions and impacts, protecting the corners of the wall from scratches and deformation.
- It has strong weather resistance, aging resistance and corrosion resistance, and is applicable to indoor and outdoor scenes.
- Engineering grade reflective film reflects light at night or in low light environments, reminding to maintain a safe distance and reduce blind spot collision accidents.
- Easy to install, compatible with various wall surfaces, and easy to maintain

Item Code: PS036

Product Name: **PVC Corner Guards**
Material: **PVC**
Length: **800mm**
Width: **95mm**
Thickness: **12mm**
Weight: **1.8Kg**

Features:

- High resistance-pressure
- Easy to fix and maintenance
- The Yellow and Black colors make the products eye-catching
- Good malleability, never damage the vehicles.

CORNER GUARDS

Item Code: PS037

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **1000mm**
Width: **100mm**
Thickness: **8mm / 10mm**
Weight: **1.2Kg / 1.5Kg**

Features:

- Can withstand frequent collisions and impacts, protecting the corners of the wall from scratches and deformation.
- It has strong weather resistance, aging resistance and corrosion resistance, and is applicable to indoor and outdoor scenes.
- Engineering grade reflective film reflects light at night or in low light environments, reminding to maintain a safe distance and reduce blind spot collision accidents.
- Easy to install, compatible with various wall surfaces, and easy to maintain

Item Code: PS041

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **1000mm**
Width: **160mm**
Thickness: **50mm**
Weight: **4.0Kg**

Features:

- Protects the structure and appearance of a building
- Absorbs and minimizes damage caused by vehicles hitting wall
- Constructed from heavy duty rubber
- Resists extreme temperature variation, moisture, UV light and oil
- Adds visibility to walls for safety
- Can be used on indoor and outdoor walls
- Ideal for retail, commercial, parking structures and more

Item Code: PS038

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **Customized**
Width: **150mm**
Thickness: **10mm**

Features:

- The wall guard is made of durable black natural rubber
- Rounded profile provides effective protection against impacts and abrasion
- Easy installation with screws or heat welding
- Mounted vertically to overlap the wall for full coverage
- Resistant to weak acids, oils, and rain for long-lasting performance

Item Code: PS042

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **1000mm**
Width: **200mm**
Thickness: **8mm**
Weight: **4.0Kg**

Features:

- High quality rubber, weather resistant, not prone to aging and cracking, can provide long-term and stable protection.
- Good buffering performance, effectively absorbing the impact force generated by vehicle collisions, reducing damage to vehicles and walls.
- The reflective film has bright colors and can reflect light in dim environments, reminding drivers to pay attention to the position of the wall and reducing the occurrence of collision accidents.
- Easy and convenient installation, can be quickly and firmly installed on the wall of the parking lot

CORNER GUARDS

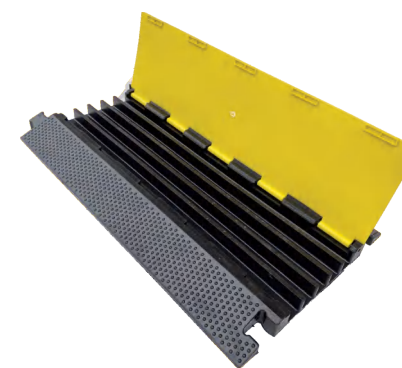

Item Code: PS043

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **980mm**
Width: **190mm**
Thickness: **80mm**
Weight: **14Kg**

Features:

- High quality rubber, weather resistant, not prone to aging and cracking, can provide long-term and stable protection.
- Good buffering performance, effectively absorbing the impact force generated by vehicle collisions, reducing damage to vehicles and walls.
- The reflective film has bright colors and can reflect light in dim environments, reminding drivers to pay attention to the position of the wall and reducing the occurrence of collision accidents.
- Easy and convenient installation, can be quickly and firmly installed on the wall of the parking lot

Item Code: SH018-5S

Product Name: **Rubber Cable Protectors**
Material: **Base: Rubber Cover: PVC**
Length: **900mm**
Width: **500mm**
Height: **50mm**
Channel: **Small 5 Channel**
Channel Size: **32 x32mm**
Weight: **10.5Kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 5 cable channels, allowing you to create any direction and length you want

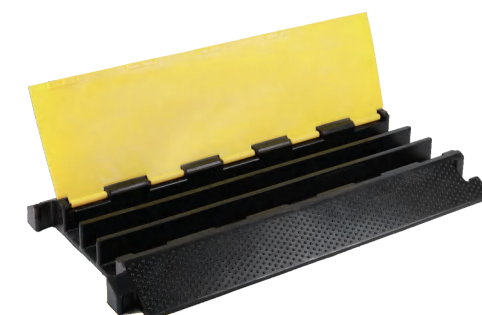

Item Code: PS044

Product Name: **Rubber Corner Guards**
Material: **Rubber**
Length: **980mm**
Width: **190mm**
Thickness: **80mm**
Weight: **14Kg**

Features:

- High quality rubber, weather resistant, not prone to aging and cracking, can provide long-term and stable protection.
- Good buffering performance, effectively absorbing the impact force generated by vehicle collisions, reducing damage to vehicles and walls.
- The reflective film has bright colors and can reflect light in dim environments, reminding drivers to pay attention to the position of the wall and reducing the occurrence of collision accidents.
- Easy and convenient installation, can be quickly and firmly installed on the wall of the parking lot

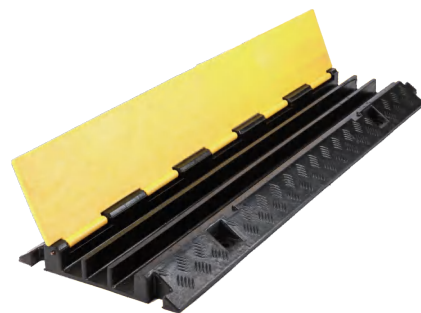

Item Code: SH019-3B

Product Name: **Rubber Cable Protectors**
Material: **Base: Rubber Cover: PVC**
Length: **900mm**
Width: **500mm**
Height: **70mm**
Channel: **Big 3 Channel**
Channel Size: **50 x70mm**
Weight: **12Kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 3 cable channels, allowing you to create any direction and length you want

Item Code: SH019-3S

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **1000mm**
 Width: **300mm**
 Height: **50mm**
 Channel: **Small 3 Channel**
 Channel Size: **32 x32mm**
 Weight: **7.5kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 3 cable channels, allowing you to create any direction and length you want

Item Code: SH021-1B

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **1000mm**
 Width: **600mm**
 Height: **120mm**
 Channel: **Big 1 Channel**
 Channel Size: **100 x130mm**
 Weight: **18.5kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 1 cable channels, allowing you to create any direction and length you want

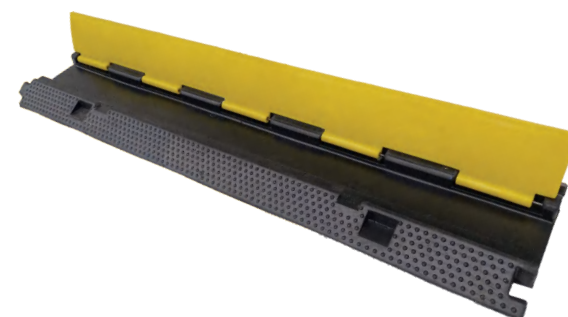

Item Code: SH021-1BM

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **1000mm**
 Width: **500mm**
 Height: **90mm**
 Channel: **Big Middle 1 Channel**
 Channel Size: **80 x80mm**
 Weight: **16kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 1 cable channels, allowing you to create any direction and length you want

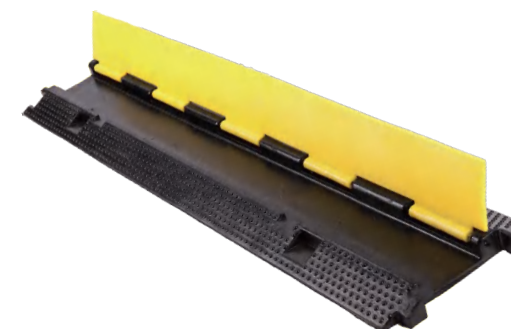

Item Code: SH021-1M

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **1000mm**
 Width: **260mm**
 Height: **70mm**
 Channel: **Middle 1 Channel**
 Channel Size: **50 x70mm**
 Weight: **8.5kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 1 cable channels, allowing you to create any direction and length you want

Item Code: SH021-1S

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **1000mm**
 Width: **220mm**
 Height: **32mm**
 Channel: **Small 1 Channel**
 Channel Size: **20x70mm**
 Weight: **4.5kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 1 cable channels, allowing you to create any direction and length you want

Item Code: SH022-2M

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **1000mm**
 Width: **350mm**
 Height: **70mm**
 Channel: **Middle 2 Channel**
 Channel Size: **50 x70mm**
 Weight: **9.5kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 2 cable channels, allowing you to create any direction and length you want

Item Code: SH022-2B

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **900mm**
 Width: **580mm**
 Height: **90mm**
 Channel: **Big 2 Channel**
 Channel Size: **70 x90mm**
 Weight: **17kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 2 cable channels, allowing you to create any direction and length you want

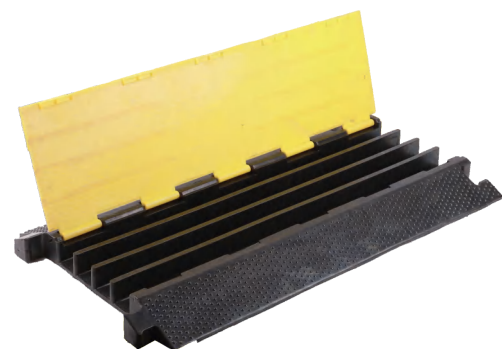

Item Code: SH022-2S

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **1000mm**
 Width: **250mm**
 Height: **50mm**
 Channel: **Small 2 Channel**
 Channel Size: **32x32mm**
 Weight: **4.5kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 2 cable channels, allowing you to create any direction and length you want

Item Code: SH024-4B

Product Name: **Rubber Cable Protectors**
 Material: **Base: Rubber Cover: PVC**
 Length: **900mm**
 Width: **500mm**
 Height: **60mm**
 Channel: **Big 4 Channel**
 Channel Size: **50 x50mm**
 Weight: **11kg**

Features:

- Made of high-strength rubber with high compressive strength.
- Effectively reduces damage to tires and is easy to install on road surfaces,
- The color is bright and does not fade for a long time.
- 4 cable channels, allowing you to create any direction and length you want

Item Code: SH026

Product Name: **Rubber Cable Protectors**
 Material: **Rubber**
 Length: **1000mm**
 Width: **300mm**
 Height: **60mm**
 Channel: **2 Channel**
 Channel Size: **30 x30mm**
 Weight: **10.5Kg**

Features:

- Made from durable rubber to ensure a long life.
- Safety Yellow Stripe for better visibility
- Easy to install on road surfaces and can also be used as a speed bump
- The bottom channel can be used for cable protection
- Built to withstand heavy vehicle traffic

Item Code: SH025

Product Name: **Rubber Cable Protectors**
 Material: **Rubber**
 Length: **1000mm**
 Width: **300mm**
 Height: **50mm**
 Channel: **1 Channel**
 Channel Size: **30 x30mm**
 Weight: **8kg**

Features:

- Made from durable rubber to ensure a long life.
- Safety Yellow Stripe for better visibility
- Easy to install on road surfaces and can also be used as a speed bump
- The bottom channel can be used for cable protection
- Built to withstand heavy vehicle traffic

Item Code: SH027

Product Name: **Rubber Cable Protectors**
 Material: **Rubber**
 Length: **1000mm**
 Width: **150mm**
 Height: **35mm**
 Channel: **1 Channel**
 Channel Size: **15 x25mm**
 Weight: **4.5Kg**

Features:

- Made from durable rubber to ensure a long life.
- Safety Yellow Stripe for better visibility
- Easy to install on road surfaces and can also be used as a speed bump
- The bottom channel can be used for cable protection
- Built to withstand heavy vehicle traffic

Item Code: SH028

Product Name: **Rubber Cable Protectors**
 Material: **Rubber**
 Length: **1000mm**
 Width: **150mm**
 Height: **35mm**
 Channel: **1 Channel**
 Channel Size: **15x25mm**
 Weight: **3.5Kg**

Features:

- Made from durable rubber to ensure a long life.
- Safety Yellow Stripe for better visibility
- Helps organize and protect cables.
- Protects cables from foot traffic and other potential hazards.
- Lightweight and portable for easy transport, Easy to install.

Item Code: SH031

Product Name: **Drop Over Cable Protector**
 Material: **Rubber**
 Length: **1000mm**
 Width: **140mm**
 Height: **20mm**
 Channel: **1 Channel**
 Channel Size: **33 x13mm**
 Weight: **2kg**

Features:

- Modular design with connections
- Made from high-quality materials, they resist wear
- Unique base increases grip and prevents displacement
- Simply place it on the cable for easy application.
- Can be extended to any desired length

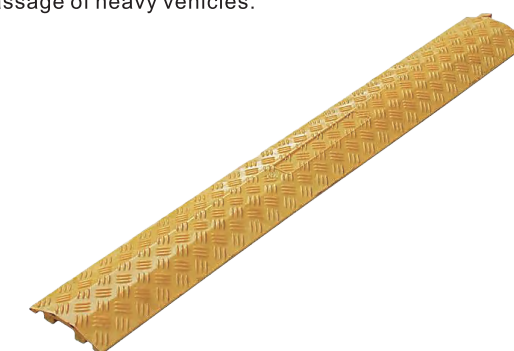

Item Code: SH029

Product Name: **Cable Protectors**
 Material: **Black PVC**
 Length: **1000mm**
 Width: **360mm**
 Height: **90mm**
 Channel: **1 Channel**
 Channel Size: **80x80mm**
 Weight: **12Kg**

Features:

- Made of durable rubber to ensure a long service life.
- Easy to install, just put it down and thread the cable through the channel, saving time and effort.
- A prominent yellow color with high visibility to enhance safety.
- Modular design allows for multiple connections to expand coverage together.
- Excellent load-bearing capacity, capable of withstanding the passage of heavy vehicles.

Item Code: SH032

Product Name: **Drop Over Cable Protector**
 Material: **PVC**
 Length: **1000mm**
 Width: **135mm**
 Height: **20mm**
 Channel: **1 Channel**
 Channel Size: **40 x10mm**
 Weight: **1.3kg**

Features:

- Anti-Slip Textured Surface Design
- Rugged, Durable, Reliable
- Protective Cable Concealment
- Bright & Visible Yellow Safety Color
- Easy to install, disassemble, and store
- Can be extended to any desired length

Item Code: WLT01

Product Name: **Traffic light**
 Material: **ABS+PC**
 Diameter: **200mm / 300mm**
 Operating voltage: **AC85V/265V, 50Hz-60Hz (176-265v)**
 Lamp beads quantity: **90pcs(single)**
 Power: **≤10W**
 Red Light Intensity: **≥6000mcd**
 Green Light Intensity: **≥10000mcd**
 Visible Distance: **>500 M**
 Working Temperature: **-40°C~80°C**

Features:

- High brightness LED lights and has powerful warning function
- The light intensity can be automatically adjusted
- Unique optical lens with good color uniformity
- The visible distance can reach up to 500 meters.
- Low power consumption, environmentally friendly and energy-saving.
- Multi layer sealed waterproof

Item Code: WLS01

Product Name: **Searchlight With Remote**
 Material: **Diecast aluminum housing**
 Length: **180mm**
 Width: **180mm**
 height: **175mm**
 Power: **60W 4800 lumen**
 Operating Voltage: **9~32 DC**
 Number of LED: **4pcsx15w high intensity LED**
 Beam: **60 degree flood beam**
 Color Temperature: **6000K**
 body Color: **Black,White**
 Waterproof rate: **IP 65**
 Switch: **wireless remote control**
 Working Temperature: **-45°C-105°C**
 Operation Duration: **30000 hours above life**

Features:

- it can apply to different types of vehicles.
- More than ordinary advanced LED light bulbs, more than 30000 hours life.
- ABS plastic casing, shock-proof waterproof better. a softer light to prevent glare.
- Waterproof and anti-corrosion, it can in the rain or harsh environments.

Item Code: WL016C

Product Name: **Solar Warning Light For Traffic Cone**
 Material: **Shell:PP.+Lens:PS**
 Len's Size: **180mm(Diameter)**
 Length: **380mm**
 Width: **85mm**
 Battery: **3.2V 800mAh Hi-MH Rechargeable Battery**
 Solar Power: **0.3W Solar Panel**
 Number of LED: **2/6 LED**
 Light Source: **Flashing or Steady Light**
 Flash Rate: **65±10 times per minute**
 Len's Colour: **Amber**
 Visual Distance: **> 500M**
 Switch: **Automatic, Switches on at Dusk and off at Dawn**
 Operation Duration: **120-150 hours run time(full 8 hours recharge)**

Features:

- High-intensity double-sided bright led light.
- UV stabilized high impact polyethylene case.
- Anti-aging and waterproof materials
- Environmental solar Panel
- Low power consumption
- Automatic work in the dark.
- Can be directly installed at the top of the traffic cone

Item Code: WL020

Product Name: **Solar Warning Light**
 Material: **Shell:PP.+Lens:PS**
 Len's Size: **180mm(Diameter)**
 Length: **300mm**
 Width: **85mm**
 Battery: **3.2V 800mAh Hi-MH Rechargeable Battery**
 Solar Power: **0.3W Solar Panel**
 Number of LED: **2 LED**
 Light Source: **Flashing or Steady Light**
 Flash Rate: **65±10 times per minute**
 Len's Colour: **Amber**
 Visual Distance: **> 500M**
 Switch: **Automatic, Switches on at Dusk and off at Dawn**
 Operation Duration: **120-150 hours run time(full 8 hours recharge)**

Features:

- High bright LED light source
- Great visual angel and excellent appearance
- Anti-aging and waterproof materials
- Environmental solar Panel
- Low power consumption
- Automatic work in the dark.
- Available with metal mounting parts to fix on a traffic cone.

Item Code: WL021

Product Name: **Solar Warning Light**
 Material: **Shell:PP.+Lens:PS**
 Len's Size: **175mm(Diameter)**
 Length: **330mm**
 Width: **95mm**
 Battery: **3.2V 800mAh Hi-MH Rechargeable Battery**
 Solar Power: **0.3W Solar Panel**
 Number of LED: **2 LED**
 Light Source: **Flashing or Steady Light**
 Flash Rate: **65±10 times per minute**
 Len's Colour: **Amber**
 Visual Distance: **> 500M**
 Switch: **Automatic, Switches on at Dusk and off at Dawn**
 Operation Duration: **120-150 hours run time(full 8 hours recharge)**

Features:

- High bright LED light source
- Great visual angel and excellent appearance
- Anti-aging and waterproof materials
- Environmental solar Panel
- Low power consumption
- Automatic work in the dark.
- Available with metal mounting parts to fix on a traffic cone.

Item Code: WL022S

Product Name: **Solar Warning Light**
 Material: **Shell:PP.+Lens:PS**
 Len's Size: **175mm(Diameter)**
 Length: **300mm**
 Width: **90mm**
 Battery: **3.2V 600mAh Hi-MH Rechargeable Battery**
 Solar Power: **0.3W Solar Panel**
 Number of LED: **2 LED**
 Light Source: **Flashing or Steady Light**
 Flash Rate: **65±10 times per minute**
 Len's Colour: **Amber**
 Visual Distance: **> 500M**
 Switch: **Automatic, Switches on at Dusk and off at Dawn**
 Operation Duration: **120-150 hours run time(full 8 hours recharge)**

Features:

- High bright LED light source
- Great visual angel and excellent appearance
- Anti-aging and waterproof materials
- Environmental solar Panel
- Low power consumption
- Automatic work in the dark.
- Available with metal mounting parts to fix on a traffic cone.

Item Code: WL024

Product Name: **LED Traffic Baton**
 Material: **ABS+PVC**
 Length: **540mm**
 Diameter: **40mm**
 Thickness: **0.8mm**
 Battery: **2x1# dry battery**
 Number of LED: **6**
 Light Source: **Flashing or Steady Light**
 Flash Rate: **120±10 times per minute**
 Visual Distance: **> 300M**
 Switch: **Manual key switch**
 Colour: **Red and green reflective film**
 Operation Duration: **30 hours run time**
 Weight: **130g**

Features:

- Two flash patterns and steady burn
- 2. Continuous run time up to 400 hours with alkaline batteries
- 3. Reflector for maximum visibility
- 4. Green, yellow, red batons optional.

Item Code: WL027

Product Name: **Solar Warning Light 360 Red**
 Material: **Shell:ABS.+Lens:PS**
 Len's Size: **165mm(Diameter)**
 Length: **225mm**
 Width: **85mm**
 Battery: **3.2V 1500mAh Hi-MH Rechargeable Battery**
 Solar Power: **0.4W Solar Panel**
 Number of LED: **4 High Intensity Super Bright LED**
 Light Source: **Flashing or Steady Light**
 Flash Rate: **65±10 times per minute**
 Len's Colour: **Amber**
 Visual Distance: **> 500M**
 Switch: **Automatic, Switches on at Dusk and off at Dawn**
 Operation Duration: **120-150 hours run time(full 8 hours recharge)**

Features:

- High bright LED light source
- Great visual angel and excellent appearance
- Fully Sealed For Durability Against Dust & Water
- Environmental Solar Panel
- Light Sensitive Switch Ensures Automatic Lumination In The Dark.
- Visible Light In a 360 Degree Direction At 60 Flashes Per Minute.
- Can be mounted on traffic cones or warning posts

Item Code: WL028

Product Name: **LED Traffic Baton**
 Material: **ABS+PVC**
 Length: **300mm**
 Diameter: **35mm**
 Thickness: **0.8mm**
 Battery: **3xAA batteries**
 Number of LED: **7 LED Top light illumination**
 Light Source: **Flashing or Steady Light**
 Flash Rate: **120±10 times per minute**
 Visual Distance: **> 300M**
 Switch: **Manual key switch**
 Colour: **Red and green reflective film**
 Operation Duration: **30 hours run time**

Features:

- Bright and vibrant LED lights for maximum visibility
- Light Weight and easy to carry for all-day use
- Multiple flashing modes to get the attention of drivers and pedestrians
- Available with battery-powered or rechargeable battery options

Item Code: WL030

Product Name: **Owl Eye Solar Warning Light**
 Material: **Shell:ABS.+Lens:PS.**
 Battery: **3.7V 1200mAh Li-ion Rechargeable Battery**
 Solar Power: **5V/200MA(1W) Solar Panel**
 Number of LED: **4 LED**
 Light Source: **Slow flash,quick Flashing or Steady Light**
 Flash Rate: **65±10 times per minute**
 Len's Colour: **Amber**
 Visual Distance: **1000M**
 Switch: **Automatic,Switches on at Dusk and off at Dawn**
 Operation Duration: **50 hours run time(full 15 hours recharge)**

Features:

- High-intensity double-sided bright led light.
- UV stabilized high impact polyethylene case.
- Anti-aging and waterproof materials
- Environmental solar Panel,with over-charging & over discharging circuit protection in place.
- Built-in AUTO Light-control system, Automatic work in the dark.
- Sleeve mount can be used to fix various road cones

Item Code: WL034

Product Name: **Solar flashing warning light**
 Material: **Shell:ABS.+Lens:AS**
 Magnet Version:length:106mm,height 226mm
 Snap-on Version:length:106mm,height 262mm
 Size: Handle Version:length:106mm,height: 292mm
 Clip-on Version:length:106mm,height: 262mm
 Clamp Version:length:106mm,height 212mm
 Battery: **3.7V/3000mAh Li-ion Rechargeable Battery**
 Solar Power: **5V/280MA(1.4W) Solar Panel 138.5mm*100mm**
 Number of LED: **32 ×0.5W LEDs**
 Light Source: **Flashing**
 Flash Rate: **65±10 times per minute**
 Len's Colour: **White**
 Visual Distance: **1000m**
 Switch: **Automatic,Switches on at Dusk and off at Dawn,switch on the device 24H Flashing**
 Operation Duration: **65hours run time(full 12 hours recharge)**

Features:

- Simple to install. No need external power
- High brightness LED beads, low power consumption
- Burst flash, high brightness, good warning effect
- Good sealing and waterproof performance, with overcharge and over discharge protection function.
- Easy to install, can be fixed on various traffic cones

Item Code: WL038

Product Name: **Led solar sunflower light**
 Material: **Shell:ABS.+Lens:PS**
 Len's Size: **400mm(Diameter)**
 Battery: **3.2V/3000MA Anti-high temperature lithium**
 Solar Power: **0.9W mono-crystalline silicon Solar Panel**
 Number of LED: **8PCS Superbright LED Lights**
 Light Source: **Flashing or Steady Light**
 Flash Rate: **65±10 times per minute**
 Len's Colour: **Amber**
 Visual Distance: **> 1500M**
 Switch: **Automatic,Switches on at Dusk and off at Dawn**
 Operation Duration: **120-150 hours run time (120 hours after charged fully)**

Features:

- The specially designed texture of the shell ensures the maximum refractive power of the light source
- High quality PC material ensures high transparency.
- The ultra bright light beads provide visibility of 1500 meters in the dark.
- Increasing the area of super solar panels can absorb solar energy faster.
- Automatically opens at dusk and closes at dawn to save energy.

Item Code: WL039

Product Name: **Warning light/without sound**
 Material: **Shell:ABS.+Lens:AS**
 Len's Size: **90mm(Diameter)**
 Height: **147.5mm**
 Working mode: **Bulb Revolving Rotating flash**
 Installation method: **Magnetic fixation**
 Light Power: **10W**
 Voltage: **DC24V AC220V**
 Len's Colour: **Red/Yellow**
 Visual Distance: **1000M(in the dark)**

Features:

- Different color clearly indicate different working conditions
- The luminous body adopts pure color super bright LED chip, the life span can reach 30,000 hours
- The parts are durable and wear-resistant
- Safer and more convenient.
- According to the form of light source, can be divided into rotary type, flash/permanent light type, LED strobe type.
- Equipped with a variety of installation options, bolt - fixed installation, magnetic suction installation.

Item Code: WL040

Product Name: **Solar Amber Light**
 Material: **Shell:ABS.+Lens:PS.**
 Light Area: **300mm / 400mm(Diameter)**
 LED color: **Yellow**
 Battery: **Lithium-Ion 12V 7AH**
 Solar Power: **10W/18V monocrystalline Solar Panel**
 Number of LED: **90 LED**
 Light Source: **Flashing**
 Flash Rate: **65±10 times per minute**
 Visual Distance: **1000M**
 Switch: **Automatic,Switches on at Dusk and off at Dawn**
 Operation Duration: **240 hours run time(full 15 hours recharge)**

Features:

- Powered by solar panels, without external power supply.
- After being fully charged, it can last for more than 10 days in wet or rainy days
- The battery can work for 3-5 years and can be replaced.
- The number of LED can be customized.
- The waterproof rating is Ip65.

Item Code: WL041

Product Name: **Solar Warning Light**
 Material: **Shell:ABS.+Lens:PS.**
 Diameter: **200mm/300mm/400mm/500mm**
 Battery: **12V 7AH**
 Solar Power: **10W Solar Panel**
 Number of LED: **30 LED**
 Light Source: **Steady Light**
 Light Colour: **Red**
 Visual Distance: **≥500M**
 Switch: **Automatic,Switches on at Dusk and off at Dawn**
 Operation Duration: **240 hours run time(full 15 hours recharge)**

Features:

- Powered by solar panels, without external power supply.
- High quality weatherproof construction for long term durability
- Shatter Resistant Solar Modules
- Premium quality solar cells
- Automatic Dusk/Dawn switching controlled by intelligent micro-controller
- Super bright red LED with minimum 50,000 hours burning life

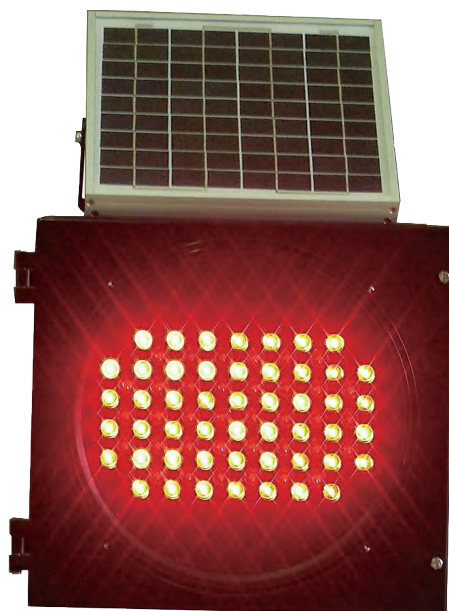

Item Code: WL042

Product Name: **Solar Flash Warning Light**
 Material: **ABS+PS**
 Diameter: **300/400mm**
 Battery: **12V 7AH**
 Solar Power: **10W mono-crystalline silicon Solar Panel**
 Number of LED: **59PCS LED**
 Light Source: **white strobe + red and blue flashback**
 Flash Rate: **65±10 times per minute**
 Visual Distance: **1200M**
 Switch: **power & light control(Switches on at Dusk and off at Dawn)**
 Operation Duration: **working time in rainy days More than 360 hours**

Features:

- High-intensity LED
- High visibility and long view distance.
- Made of high quality, the life is long.
- Customizable

Item Code: WL043

Product Name: **Solar Warning Light**
 Material: **Shell:ABS.+Lens:PS**
 Diameter: **300mm/400mm/500mm**
 Battery: **12V 7AH**
 Solar Power: **10W Solar Panel**
 Number of LED: **4 LED**
 Light Source: **Steady Light**
 Light Colour: **Blue / Red**
 Visual Distance: **≥500M**
 Switch: **Automatic,Switches on at Dusk and off at Dawn**
 Operation Duration: **50 hours run time(full 15 hours recharge)**

Features:

- Powered by solar panels, without external power supply.
- High quality weatherproof construction for long term durability
- Shatter Resistant Solar Modules
- Premium quality solar cells
- Automatic Dusk/Dawn switching controlled by intelligent micro-controller
- Super bright dual color flashing light with higher warning

Item Code: WL044

Product Name: **Solar pointing light panel**
 Material: **PP+PS**
 Length: **450mm / 600mm**
 Width: **600mm / 800mm**
 Battery: **6V/6000MA Anti-high temperature lithium**
 Solar Power: **6W mono-crystalline silicon Solar Panel**
 Number of LED: **52PCS Superbright LED Lights**
 Light Source: **yellow strobe**
 Flash Rate: **65±10 times per minute**
 Visual distance: **800M**
 Switch: **power & light control(Switches on at Dusk and off at Dawn)**
 Operation Duration: **working time in rainy days More than 360 hours**

Features:

- High-intensity LED
- High visibility and long view distance.
- Made of high quality, the life is long.
- Customizable

Item Code: WL045

Product Name: **Solar pointing light panel**
 Material: **PP+PS**
 Height: **600mm**
 Width: **400mm**
 Thickness: **20mm**
 Battery: **6V/6000MA Anti-high temperature lithium**
 Solar Power: **6W mono-crystalline silicon Solar Panel**
 Number of LED: **33PCS Superbright LED Lights**
 Light Source: **yellow strobe**
 Flash Rate: **65±10 times per minute**
 Visual distance: **800M**
 Switch: **power & light control(Switches on at Dusk and off at Dawn)**
 Operation Duration: **working time in rainy days More than 360 hours**

Features:

- High-intensity LED
- High visibility and long view distance.
- Made of high quality, the life is long.
- Customizable

Item Code: WL046

Product Name: **Road Work Guide Sign**
 Material: **Metal+PS**
 Length: **1250mm**
 Width: **500mm**
 Battery: **6V/3000MA Anti-high temperature lithium**
 Solar Power: **6W mono-crystalline silicon Solar Panel**
 Number of LED: **36PCS Superbright LED Lights**
 Light Source: **yellow strobe**
 Flash Rate: **65±10 times per minute**
 Visual distance: **800M**
 Switch: **power & light control(Switches on at Dusk and off at Dawn)**
 Operation Duration: **working time in rainy days More than 360 hours**

Features:

- Solar Power, No need for electrical wiring.
- Long service time, Safe and sustainable
- Highly visible, even in low light conditions, Visual distance greater than 800m
- 36 LED per lamp holder
- Programmable to flash or display different messages, Customize design available

Item Code: WL047

Product Name: **Solar Powered Circling Revolving Warning Light**
 Material: **Shell:PP.+Lens:PC. galvanized steel plate(back)**
 Size: **560mm(Diameter)×150mm**
 Bracket height: **1.2m-2m (adjustable)**
 Battery: **6V/3000MA Anti-high temperature lithium**
 Solar Power: **6W mono-crystalline silicon Solar Panel**
 Number of LED: **15*8+9PCS Superbright LED Lights**
 Light Source: **white strobe + red and blue flashback**
 Flash Rate: **65±10 times per minute**
 Visual Distance: **> 3000M**
 Switch: **power & light control(Switches on at Dusk and off at Dawn)**
 Operation Duration: **72 can be used for 3 days and nights in rainy days (fully charged)**

Features:

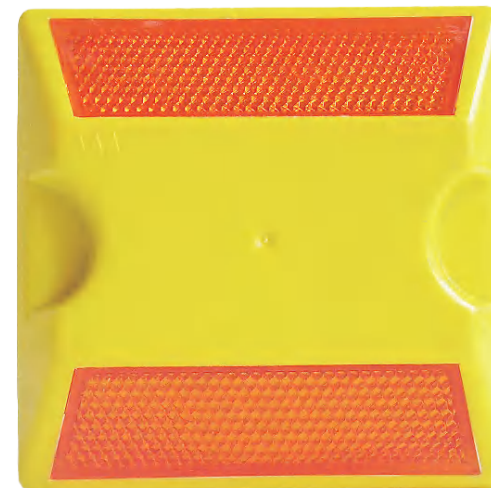

- High-brightness LED lamp beads, long visible distance at night
- The control switch is convenient and simple to use
- Solar panels, green energy saving and environmental protection
- Adjustable triangular bracket, stable, efficient and convenient.

Item Code: WL048

Product Name: **Solar Guide board trailer**
 Material: **Steel+PC**
 height: **3000mm**
 Length: **1650mm**
 Width: **750mm**
 Battery: **6V/3000MA Anti-high temperature lithium**
 Solar Power: **6W mono-crystalline silicon Solar Panel**
 Number of LED: **45PCS Superbright LED Lights**
 Light Source: **yellow strobe**
 Flash Rate: **65±10 times per minute**
 Visual distance:**1500M**
 Switch: **power & light control(Switches on at Dusk and off at Dawn)**
 Operation Duration: **working time in rainy days More than 360 hours**

Features:

- High-output amber LEDs,Wide visual angle & long visual distance
- Selection of arrow and other display patterns
- Easy to operate and maintain
- Control box outputs have short-circuit protection, helping prevent blown transistors
- Arrow display has automatic dimming
- Sabilizer legs raise tires off the ground to provide stability in high wind

Item Code: TS045

Product Name: **Plastic road studs**
 Material: **ABS+PS**
 Length: **100mm**
 Width: **100mm**
 Thickness: **20mm**
 Reflector Color: **Red, White, Yellow, Blue, Green or Customized**
 Visible distance: **≥300m**
 Resist Compression: **≥15 ton**
 weight: **90g**
 Working Temperature: **-40~+60°C**

Features:

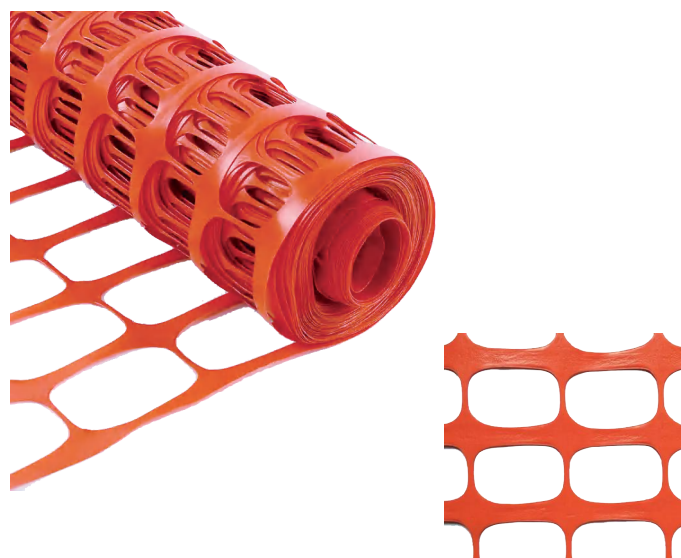

- Made of high-quality plastic, it is resistant to pressure, shock, and high temperature.
- Easy to install on roads.
- It has a strong reflective effect and also makes the city beautiful.
- Suitable for various road conditions

Item Code: TS047

Product Name: **Solar road stud**
 Material: **Aluminium+PMMA**
 Base Size: **105×105×23mm / 122×105×23mm**
 LED Lamp: **6PCS**
 Solar Panel: **0.3W, Mono-Crystalline**
 Battery Type: **1.2V 800MAH NI-MH Resistant High Temperature Battery**
 Reflector Color: **Red, White, Yellow, Blue, Green or Customized**
 Visible distance: **About 800m**
 Discharging time: **Sustainable Working More Than 15 Days 12h Per Night**
 Charging time: **6-8 hours**
 Resist Compression: **Shell Static Load-Bearing 20T**
 weight: **About 200~300g**

Features:

- Made of aluminum alloy material, pressure resistant
- Solar energy supply, light controlled switch.
- High quality LED beads emit high brightness and high visibility.
- Waterproof, corrosion-resistant, and not easily damaged

Item Code: OP014

Product Name: **Plastic Safety Fence**
 Color: **Orange**
 Material: **PE**
 Roll Width: **100CM**
 Roll Length: **35m / 50m**
 Mesh shape: **Rectangular /Oval**
 Grammage (g/m²): **40g/90g/100g/120g/140g/160g/200g**

Features:

- Bright orange color for maximum visibility
- Light weight for easy installation
- Durable and flexible
- Long service life

Item Code: OP015

Product Name: **Green Safety Net**
 Color: **Green & Black**
 Material: **PE**
 Roll Width: **2M/3M/4M**
 Roll Length: **30M/40M/50M(Customized)**
 Grammage (g/m²): **80g/100g/110g/140g/160g/200g**

Features:

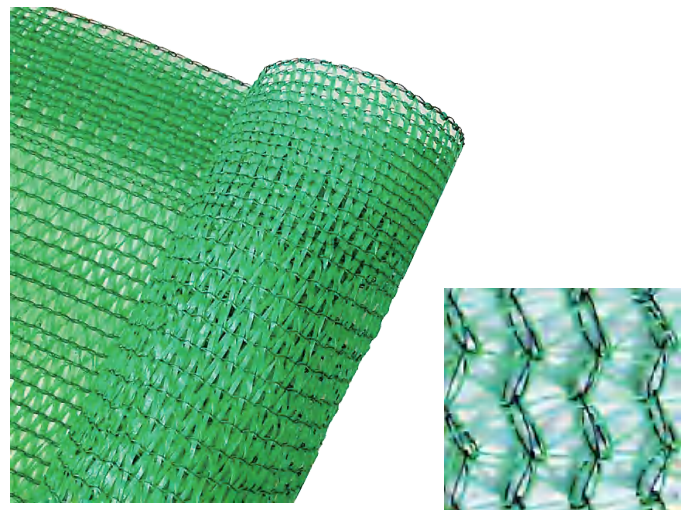

- Prevent dust, debris, and tools from falling, protect workers, pedestrians, and adjacent properties
- High density knitted mesh with reinforced edges for easy fixation
- UV resistant treatment, tear resistant
- Mesh design allows for air circulation and prevents scattering during cutting

Item Code: OP016

Product Name: **Tarpaulin**
 Color: **Blue/Orange/Green**
 Material: **PE**
 Width: **2m/3m/4m(Customized)**
 Length: **3m/4m/5m(Customized)**
 Grammage (g/m²): **50g/60g/70g/85g/95g/110g/130g**

Features:

- High tensile strength and puncture resistance, Light weight hence ease of handling
- Outstanding flexibility hence suited to cover irregular shapes
- Tough and durable Heat-sealed hemming with strong joints; no stitches
- UV protection, which can last longer even in sunny outdoor environments

Item Code: OP001

Product Name: **warning tape**
 Material: **PE**
 Width : **48mm/70mm/100mm (customized)**
 Length: **100m/150m(customized)**
 Thickness: **0.03mm(customized)**
 Elongation at Break: **100-400%**

Features:

- Possess high tensile strength for durability
- Has high visibility to help identify potentially dangerous areas
- Printing which is UV resistant and scratch proof
- Special material tapes available in any color, language, and sizes

Item Code: OP005

Product Name: **Detectable warning tape**
 Material: **PE+aluminum foil+OPP**
 Width : **75MM**
 Length: **300M**
 Thickness: **0.12mm**
 Tensile Strength: **75N**

Features:

- Possess high tensile strength for durability
- Endures temperatures from -50°C to 120°C
- Has high visibility to help identify potentially dangerous areas
- Printing which is UV resistant and scratch proof

Item Code: OP002

Product Name: **warning tape**
 Material: **PE**
 Width : **48mm/70mm/100mm(customized)**
 Length: **100m/150m(customized)**
 Thickness: **0.04mm(customized)**
 Elongation at Break: **100-400%**

Features:

- Possess high tensile strength for durability
- Has high visibility to help identify potentially dangerous areas
- Printing which is UV resistant and scratch proof
- Special material tapes available in any color, language, and sizes

Item Code: OP022

Product Name: **SASO 2913 Yellow Reflective Tape**
 Material: **Aluminizing PET +Pressure-sensitive glue**
 Width : **50MM(customized)**
 Length: **25m(customized)**
 Thickness: **0.38±0.01mm**
 Peel Adhesion 90°: **20-30N/25mm 100g glue**
 Elongation At Break: **3-5%**
 Reflectance: **180-200**
 Color: **Yellow / Silver**

Features:

- High visibility
- Strong viscosity
- Waterproof
- Excellent weather resistance

Item Code: OP101

Product Name: **Kraft Paper Tape**
Material: **Backing: Kraft Paper**
Adhesive: Starch adhesive
Width :12mm/18mm/48mm(customized)
Length: 50m/100m
Thickness: 0.14±0.01mm / 0.17±0.01mm
tensile strength: MD:260 N/25mm/CD:92 N/25mm
color: **Natural**

Features:

- Strong adhesion, able to quickly bond with cardboard boxes.
- Customizable printing to improve packaging appearance.
- High tensile strength, not easily torn or broken.
- Anti tampering seal to ensure the safety of the contents during transportation

Item Code: OP103

Product Name: **BOPP Packing Tape**
Material: **Backing: BOPP**
Adhesive: Water based adhesive
Width :48mm
Length: 50m (customized)
Thickness: 0.05±0.01mm / 0.10±0.01mm
Color: **clear**

Features:

- Effortless Application
- Superior Adhesive Strength
- Suitable for various packaging needs
- Has high tear resistance and wear resistance.
- Long-lasting Adhesion

Item Code: OP102

Product Name: **Masking Tape**
Material: **Backing: Crepe paper**
Adhesive: rubber based adhesive
Width :20mm/48mm
Length: 50m/100m
Thickness: 0.15±0.01mm/ 0.17±0.01mm
Tensile Strength: 20-30 N/25mm
Color: **Natural**

Features:

- The structure is leak proof, durable, and tear resistant.
- It has moderate adhesion and can firmly adhere to various surfaces.
- Easy to use, leaving minimal residue when disassembled
- Suitable for indoor and outdoor applications.

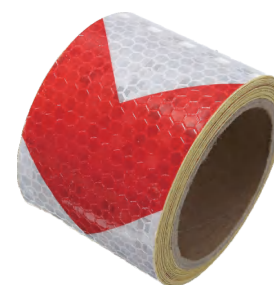

Item Code: OP104

Product Name: **Filament Tape**
Material: **Backing: PET Adhesive: Synthetic Rubber**
Reinforcement: Fiberglass
Width :12mm/18mm/24mm / 48mm
Length: 50m(customized)
Thickness: 0.14±0.01mm
tensile strength: 850N/25mm
Peel Adhesion 90°: 230N/25mm
Color: **Clear**

Features:

- High tensile strength,
- Has strong adhesive strength;
- Has high wear resistance;
- Impact resistance and high retention.

Item Code: OP105

Product Name: **Reflective Tape**
Material: **PET film/PV film/acrylic**
Width :50MM(customized)
Length: 25M(customized)
Thickness: 0.38±0.01MM
Peel Adhesion 90°: 20-30N/25MM100g glue
Elongation at Break: 3-5%
reflectance: 180-200
Color: **Red&white, Yellow&red, Green&black, Yellow&black**
Blue&white, White, Red, Yellow, Green, Blue

Features:

- High visibility, Strong reflectance
- Strong viscosity
- Waterproof
- Excellent weather resistance
- Multiple Uses, Immeasurable Value

Item Code: OP027

Product Name: **Wheel Lock Clamp**
Material: **Heavy-duty Steel+PVC**
Length: 650mm/850mm
Sucker Diameter: 300mm
Max Width: 38cm
Suitable Tires Diameter: 40cm-85cm
Thickness: 2.0mm

Features:

- Can be easily adjusted to varying rim and tire sizes
- Clamp features PVC coating which will not damage wheels or rims
- Easy to lift and store in the trunk
- Will not rust when kept in the rain or snow
- Bright yellow and easy to spot

Item Code: OP026

Product Name: **Queue Crowd Control Barrier**
Material: **Stainless steel/Plastic/Titanium**
Base diameter: 320mm
Column diameter: 63mm
Height: 890mm
Band width: 48mm
Band length(m): 2m/3m/5m

Features:

- Locking belt to prevent accidental release.
- Full circumference rubber floor-protector, to help prevent floor scuffing.
- One-piece post construction provides superior strength.
- Minor assembly required.
- Heavy base for maximum stability.

Item Code: OP017

Product Name: **Caution Wet Floor Signs**
Material: **PE**
Length: 610mm / 620mm / 630mm
Width: 290mm /300mm/ 300mm
Opening width: 400mm
weight: 0.55Kg/0.65Kg/0.70Kg

Features:

- Lightweight, versatile
- Portability
- High Durability
- Its unique design allows clear visibility to facilitate users and pedestrian.

Item Code: OP0012

Product Name: **Convex Mirrors(Outdoor)**
Material: **Backboard ABS+PC Lens**
Diameter: **45cm / 60cm / 80cm / 100cm**
Thickness: **0.55mm/0.55mm/0.55mm/0.7mm**

Features:

- Crystal clear images with expanded field of view
- Long life, impact-resistant PC lenses
- Easy to install, no maintenance required
- Reliable and adjustable mounting brackets
- Weatherproof

Item Code: OP009

Product Name: **Safety triangles**
Material: **ABS+PS**
Triangle Length: **430mm**
Triangle Width: **30mm**
Reflector width: **33mm**
Base size: **460×410×20mm**
Thickness: **1.8mm**
Height(mm): **450mm**

Features:

- The triangles have red reflectors for ultimate day and night-time visibility
- Metal weighted base keeps triangles stable in high winds
- No skid rubber feet
- No tools are required to set up
- Folds flat when not in use

Item Code: OP0013

Product Name: **Convex Mirrors(Indoor)**
Material: **Backboard ABS+PC Lens**
Diameter: **45cm / 60cm / 80cm / 100cm**
Thickness: **0.55mm/0.55mm/0.55mm/0.7mm**

Features:

- Crystal clear images with expanded field of view
- Long life, impact-resistant PC lenses
- Easy to install, no maintenance required
- Reliable and adjustable mounting brackets
- Weatherproof

Item Code: OP025

Product Name: **Windsocks**
Material: **Waterproof Oxford cloth**
Diameter: **Outer: 50cm, Inlet: 40cm**
Length: **60cm/80cm/100cm/150cm/200cm**
Color: **Orange/Red&White/Orange&White**

Features:

- Made with water resistant fabric.
- With highly visible fluorescent orange colour.
- Designed to show the direction & strength of the wind.
- Suitable to be used at airports, factories, and other public areas.
- Doesn't come with pole & frame.

Item Code: ALM01

Product Name: **Motor alarm**
Material: **Steel +ABS**
Operating voltage: **AC 220V**
Power reaches: **80W**
Standby current: **≤ 80uA**
Alarm current: **1.0A, 1.9A**
Working mode: **Alarm when power on**
Insulation resistance: **100MΩ(at 500 VDC)**
Withstand voltage: **500VAC, 50/60Hz in 1 minute**
Alarm sound: **114dB(A)@1M Electric**
Protection level: **IP44**
Operating temperature: **-10°C~50°C**
Operating humidity: **≤ 95%RH(no condensation)**
Width: **75mm**
Length: **102mm**
Height: **83mm**
Colour: **Red**

Features:

- Durable and long-lasting
- High volume long-distance transmission signal sound
- Easy installation and maintenance
- Quick start, stable operation, strong sound penetration and large coverage.

Item Code: ALM02

Product Name: **Motor alarm**
Material: **Aluminum+iron**
Operating voltage: **AC 220-240V**
Power reaches: **65W**
Standby current: **≤ 80uA**
Alarm current: **1.0A, 1.9A**
Working mode: **Alarm when power on**
Insulation resistance: **100MΩ(at 500 VDC)**
Withstand voltage: **500VAC, 50/60Hz in 1 minute**
Alarm sound: **105+2dB(A)@1M Electric**
Protection level: **IP44**
Operating temperature: **-10°C~50°C**
Operating humidity: **≤ 95%RH(no condensation)**
Width: **132mm**
Length: **215mm**
Height: **145mm**
Colour: **Red**

Features:

- Durable and long-lasting
- High volume long-distance transmission signal sound
- Easy installation and maintenance
- Quick start, stable operation, strong sound penetration and large coverage.

Item Code: MC-01

Product Name: **Manual Fire Alarm Push Button**
 Material: **ABS+PC**
 Operating voltage: **DC 20-30V**
 Standby current: **≤ 400uA @24VDC**
 Alarm current: **≤ 2mA @24VDC**
 Indicator LED of alarm: **Red LED Light on**
 Range of address: **1~120**
 Connection: **Two wires, non-polarity**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **≤ 95%RH(no condensation)**
 Length: **87mm**
 Width: **87mm**
 Height: **58.4mm**
 Colour: **RED**

Features:

- 1.100% brand new and high quality
- Supports electrical control or access control system
- Made of a durable plastic shell and easy to install
- The Material Of Push Button Panel Is Plastic, can Reset
- Just break the panel glass with force to send the fire signal.
- Best protector in home, shop and other places

Item Code: MC-02

Product Name: **Manual Fire Alarm Push Button**
 Material: **ABS+Glass**
 Operating voltage: **DC 12V**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **≤ 95%RH(no condensation)**
 Length: **86mm**
 Width: **86mm**
 Height: **52mm**
 Colour: **Green**

Features:

- It can realize complete electronic coding and in situ rewriting with help of a coder.
- Designed with an upper cover and a lower cover, it can be installed, debugged and maintained conveniently.
- It is designed with a two-wire fire telephone jack and is therefore more applicable to engineering application.
- Designed with passive output contacts, it can control other external equipment directly through an intermediate relay.
- The pressing sheet on the manual call point will not get crushed after it is pressed, but can be reset by a special tool, so it can be used repeatedly.

Item Code: SL-02

Product Name: **Fire Siren With LED Light**
 Material: **ABS**
 Operating voltage: **12V/24V DC**
 Rated current: **80mA~100mA**
 Alarm current: **10~30mA @12V ; 20~50mA @24V**
 Flash Light: **LED life: ≥100000 times**
 Flash intensity: **≥1.2ws**
 flash period: **≤1.5s**
 Alarm sound: **≥103dB@12V ; ≥105dB@24V**
 Provenience of sound alarm: **Ambulance sound / Sound of police car / Sound of fire engine**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **≤ 95%RH(no condensation)**
 length: **125mm**
 width : **125mm**
 Height: **50mm**
 Colour: **Red**

Features:

- FIRE audible and visual alarm io used to produce the sound alarm and flash alarm of the scene of the accident. especially for the spot where there is smoke in the background of poor visibility or accident
- It can used in all DC24V voltage fire alarm control system, security monitoring alarm system and other alarm system. Only need
- DC24V power supply is required to work, emitting a blinding flash signal and greater than 85dB sound alarm signal
- Through the control module can connected to the code/simulated fire alarm control system.
- 4 Through intelligent control module can be connected to intelligent fire automatic alarm control system
- 5 As a sound and light alarm device in a gas fire alarm control system
- With low power consumption, long life, alarm tone is optional and installed flexibly, convenient and so on.

Item Code: HD-01

Product Name: **heat detector**
 Material: **ABS**
 Operating voltage: **DC 9V~35V**
 Standby current: **2 WIRE: ≤ 55uA**
 Alarm current: **2 WIRE: 20~25mA@12V,40~55mA@24V**
 Output: **Remote LED**
 Indicator LED of alarm: **Red LED Light on**
 Detecting Range: **50 m² at 6~12m Installation Height**
 Temperature Trip Point: **Fixed Temperature: 57°C(135°F)**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **≤ 95%RH(no condensation)**
 Dimension : **103mm**
 Height: **53mm**
 Colour: **White**

Features:

- Dual LEDs for 360° visibility
- Easy installation and maintenance
- Sleek low-profile housing design
- Durable sensor head, no need for replacement
- Easy installation, Anti-tamper function
- Standard: According to

Item Code: HD-02

Product Name: **heat detector**
 Material: **ABS**
 Operating voltage: **DC 9V~35V**
 Standby current: **2 WIRE: ≤ 55uA**
 Alarm current: **2 WIRE: 20~25mA@12V, 40~55mA@24V**
 Output: **Remote LED**
 Indicator LED of alarm: **Red LED Light on**
 Detecting Range: **50 m² at 6~12m Installation Height**
 Temperature Trip Point: **Fixed Temperature: 57°C(135°F)**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **≤ 95%RH(no condensation)**
 Dimension : **99mm**
 Height: **46.8mm**
 Colour: **White**

Features:

- Dual LEDs for 360° visibility
- Easy installation and maintenance
- Sleek low-profile housing design
- Durable sensor head, no need for replacement
- Easy installation, Anti-tamper function
- Standard: According to

Item Code: SD-01

Product Name: **smoke alarm**
 Material: **ABS**
 Operating voltage: **DC 9V (AC220V+DC9V optional)**
 Standby current: **≤8uA / AC≤30mA**
 Alarm current: **≤40mA@DC24V, ≤25mA@DC12V**
 Indicator LED of alarm: **red LED flash**
 Battery life: **about 1 year**
 Reset: **Automatic reset**
 Sensitivity: **0.08- 0.16db/m(±0.1db/m)**
 Buzzer: **Buzzer output**
 Alarm sound pressure: **85dB/3M**
 Installation method: **Ceiling mount**
 Operating temperature: **0°C~50°C**
 Operating humidity: **≤ 95%RH(no condensation)**
 Dimension : **142mm**
 Height: **40.5mm**
 Colour: **White**

Features:

- Responds well to slow burning, smouldering fires
- Well suited to bedrooms and escape routes
- Unaffected by wind or atmospheric pressure
- Wide operating voltage
- High-sensitivity

Item Code: SD-02

Product Name: **smoke detection**
 Material: **ABS**
 Operating voltage: **DC 9V~35V (orders, DC40~60V)**
 Standby current: **≤ 80uA**
 Alarm current: **≤40mA@DC24V, ≤25mA@DC12V**
 Indicator LED of alarm: **Red LED Light on**
 Reset: **Power off or auto reset**
 Alarm output: **Remote led for 2 wires**
 Sensitivity: **0.08- 0.16db/m(±0.1db/m)**
 Buzzer: **Buzzer output**
 Alarm sound: **85dB/3M**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **≤ 95%RH(no condensation)**
 Dimension : **103mm**
 Height: **53mm**
 Colour: **White**

Features:

- Dual LEDs for 360° visibility
- Easy installation and maintenance
- High adaptability to the ambient, with dustproof, mothproof, moisture proof and anti-white light function
- Power off or auto reset, Remote LED Indicator (2 Wire)
- Buzzer assembled, Loud 85dB alarm signal

Item Code: SD-03

Product Name: **smoke detection**
 Material: **ABS**
 Operating voltage: **DC 9V~28V**
 Standby current: **≤ 60uA @12V**
 Alarm current: **≤30mA@DC12V**
 Indicator LED of alarm: **Red LED Light on**
 Alarm output: **Remote led for 2 wires**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **≤ 95%RH(no condensation)**
 Dimension : **99mm**
 Height: **43.5mm**
 Colour: **White**

Features:

- Dual LEDs for 360° visibility
- Easy installation and maintenance
- High adaptability to the ambient, with dustproof, mothproof, moisture proof and anti-white light function
- Power off or auto reset, Remote LED Indicator (2 Wire)

Item Code: SD-04

Product Name: **Wired Smoke Detector**
 Material: **ABS**
 Operating voltage: **DC 9V~35V (orders,DC40~60V)**
 Standby current: **2 WIRE: $\leq 50\mu A$;**
 Alarm current: **2 WIRE: 20-50mA@12V / 40-50mA@24V**
 Indicator LED of alarm: **Red LED Light on**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **$\leq 95\%RH$ (no condensation)**
 Dimension : **99mm**
 Height: **46.8mm**
 Colour: **White**

Features:

- Dual LEDs for 360° visibility
- Easy installation and maintenance
- High adaptability to the ambient, with dustproof, mothproof, moisture proof and anti-white light function
- Power off or auto reset, Remote LED Indicator (2 Wire)

Item Code: SD-05

Product Name: **Wired Smoke Detector**
 Material: **ABS**
 Operating voltage: **DC 9V~35V (orders,DC40~60V)**
 Standby current: **2 WIRE: $\leq 50\mu A$;**
 Alarm current: **2 WIRE: 20-50mA@12V / 40-50mA@24V ;**
 Indicator LED of alarm: **Red LED Light on**
 Operating temperature: **-10°C~50°C**
 Operating humidity: **$\leq 95\%RH$ (no condensation)**
 Dimension : **99mm**
 Height: **46.8mm**
 Colour: **White**

Features:

- Dual LEDs for 360° visibility
- Easy installation and maintenance
- Combined heat and smoke detector with built-in sounder
- For use with two wire fire systems
- Power off or auto reset, Remote LED Indicator (2 Wire)

Item Code: EW-03A

Product Name: **Combination shower and eyewash unit**
 Material: **tainless steel**
 Using function: **eyewash and shower**
 (Can be used simultaneously or separately)
 Height: **2200mm**
 Width: **750mm**
 Pipe diameter: **38mm**
 Water pressure: **0.2MPA-0.6MPA**
 Spray water flow rate: **$\geq 76L/min$**
 Rinse eyes/face water flow rate: **$\geq 11.4/min$**
 Operating temperature: **0°C-40°C**

Features:

- Stainless steel castings are sturdy and durable, ensuring smooth water supply
- Dual functionality combines eyewash and shower for comprehensive safety.
- Instant response activates in 1 second for immediate emergency assistance
- The angle of the eye basin is reasonable, and the water outlet automatically flips over, making it more convenient to use.
- Reasonably recycle wastewater at the outlet to ensure a clean site
- Hand foot linkage, humanized design

Item Code: FEB01

Product Name: **Fire Extinguisher Bracket**
 Material: **Steel**
 pipe diameter: **25mm**
 Length: **300mm**
 Width: **310mm**
 Height: **800mm**
 Colour: **Red**

Features:

- Modern style and high-visibility in standard red
- Lightweight single piece tubular frame with UV protected powder coat paint
- 3.Universalbracket for any type of extinguisher

Item Code: HA001

Product Name: **Hand -operated sirens**
 Material: **Aluminum alloy siren with steel tube stand**
 Height: **745mm**
 Sound pressure level: **125+2dB(A) @1m**
 Audio frequency: **600Hz $\pm$ 20Hz(depends on speed of rotation)**
 Effective range: **2500m in diameter**
 Colour: **Gray**

Features:

- No power supply required
- Light weight for portability
- Powerful low frequency sound
- Universally Recognized Signal
- Shutter mechanism to provide a choice of signals:continuous and warble

Item Code: CP001

Product Name: **Manual call point cover**
 Material: **PC**
 Working temperature: **-40°C~120°C**
 Waterproof level: **IP65**
 Length: **184mm**
 Width: **136mm**
 Height: **65mm**
 Colour: **Clear**

Features:

- Reduces false alarms.
- Protects against accidental damage.
- Retrofit capability.
- Protects against vandalism.
- Tough polycarbonate housing.
- Flush or surface mount applications.

Item Code: CP002

Product Name: **Manual call point cover, with sound**
 Material: **PC**
 Working temperature: **-40°C~120°C**
 Waterproof level: **IP65**
 Length: **206.3mm**
 Width: **136.8mm**
 Height: **67mm**
 Colour: **Clear**

Features:

- Protective cover helps stop false fire alarms
- Super tough clear polycarbonate tamper proof cover and piezo horn
- Horn sounds when cover is lifted to gain access to alarm
- Cover is connected to the frame by a cable.

Item Code: PK002

Product Name: **Safety padlock**
 Material: **Lock beam:Chrome-plated steel,Lock body (outer shell):Nylon, Lock body(inner shell): Zinc alloy ,Lock cylinder:copper,key,copper**
 Lock body height: **45mm**
 Lock body Width: **40mm**
 Lock beam height: **38mm**
 Lock beam Diameter: **6mm**
 Colour: **Red, Yellow, Blue, Green, Orange, Purple, Black & White.**

Features:

- Durable, lightweight with high-quality nylon lock body
- Withstand temperature from -30°C to +120°C & shock resistance.
- Chemical, high temperature and UV rays resistance.
- Key with 6 pins cylinder provides extra safety and high security.
- Key retaining feature ensures the padlock is not left unlocked.

Item Code: LB002

Product Name: **Lock box**
 Material: **Carbon Steel**
 Length: **103mm**
 height: **152mm**
 Width: **260mm**
 Material thickness: **1.0mm**
 Lock beam Diameter: **6mm**
 Colour: **Red**

Features:

- Durable steel construction.
- Red finish high-visibility, re-usable.
- Exclusive Latch Tight feature ensures that keys cannot be accessed until the last lock is removed.
- Performs effectively in extreme conditions.

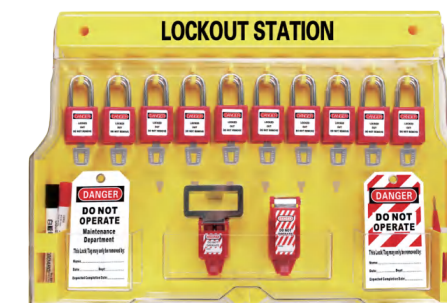

Item Code: OP024

Product Name: **First aid kit**
 Material: **Aluminum+ glass**
 Size: **S:29*10.5*25.5cm M:31.5*12.5*25.5cm**
L:34*12.5*29.5cm XL:37.5*13.5*33.5cm
XXL:50*18*38cm
 Color: **Aluminum color**

Features:

- Comes with adjustable internal dividers to better organise your first aid contents
- Portable and can be wall mounted too
- 3,Wall bracket allows the first aid box to be mounted on wall securely
- Sturdy and durable
- Customised sticker labeling (subject to availability)

Item Code: LB003

Product Name: **Lockout Station**
 Material: **ABS+PC**
 Height: **395mm**
 Width: **567mm**
 Thickness: **63mm**
 Color: **Yellow, Clear**

Features:

- Constructed of durable poly carbonate that provide a virtually indestructible station.
- Safety lockout station with exclusive lockable translucent cover.
- Provide large capacity, high visibility storage to help facilitate proper and convenient lockout requirements.
- It is lockable by using a combination of padlocks to limit access to the authorised employees.

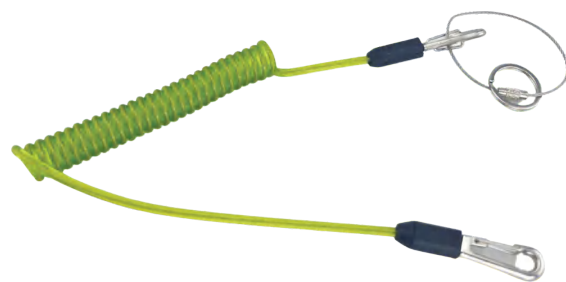

Item Code: OP020

Product Name: **First aid kit**
 Material: **ABS, Polypropylene**
 Size: **S:29*20*12cm M:34*24.5*12.5cm**
L:40*28*14cm XL:44*33*15cm
 Color: **Green Red**

Features:

- Stands as an all in one wound management system for low to moderately exuding wounds
- Equipped with an array of medical first-aid supplies for emergency injuries
- Crafted with a high-grade material that ensures a long-term usage

Item Code: OP029

Product Name: **Safety Lanyard for Tools**
Material: **stainless steel wire+PVC coated**
Total Length: **2000mm**
Diameter: **4mm**
Loading weight: **1-7.5kg**

Features:

- High elasticity, strong toughness, high tensile strength
- high color, exquisite beauty
- Durable Built to withstand the rigors of any job site.
- Perfect for any tool or scaffold spanner with a tethering point

Item Code: OP117

Product Name: **Gloves Holder**
Material: **POM**
Length: **100mm / 122mm**
Width: **32mm / 31mm**
Weight: **24g / 15g**

Features:

- Non-conductive
- Non-corrosive
- Ergonomic design, gently pinch to open and release to close
- Redundant safety breakaway helps prevent individuals from being pulled into machinery
- Interlocking teeth to securely grasp your gloves

Item Code: FEH01

Product name: **Fire Extinguisher Hanger**
Material: **Iron**
Rod diameter: **8.5mm**
Base diameter: **70mm**
Length: **68mm**
Colour: **Red**
Weight: **100g**

Features:

- Bracket design is simple and easy to install
- Lightweight single piece tubular frame with UV protected powder coat paint
- Suitable for Within 20KG CO2 fire extinguishers,
- Can be fixed to walls, cabinets, and more.

Item Code: FEH02

Product Name: **Fire Extinguisher Hanger**
Material: **Iron**
Length: **70mm**
Width: **30mm**
Height: **52mm**
Thickness: **2.5mm**
Colour: **Red**

Features:

- Heavy duty construction and durable to use.
- Frame with UV protected powder coat paint
- Universal bracket for any type of extinguisher

Item Code: HT001

Product Name: **Hang tag**
Material: **Plastic PVC**
Height: **145mm**
width: **75mm**
Thickness: **0.8mm**
Hole diameter: **8mm**
Colour: **Red & black**

Features:

- Durable and long-lasting
- The tag allows specific information to be recorded and clearly displayed.
- UV Resistant, Impact Resistant

Item Code: OP021Z

Product Name: **Safe Scaffolding Tags**
Material: **Plastic**
Height: **285mm**
width: **153mm**
Hole diameter: **64mm**
Color: **White holder. Green & Yellow Labels**

Features:

- Fit most standard scaffolding tag holders
- Durable and reusable
- The scuff-resistant, matte-finished surface is easy to write on.
- UV Resistant, Impact Resistant

Item Code: OP021

Product Name: **Safe Scaffolding Tags**
Material: **ABS**
Height: **307mm**
width: **91mm**
Hole diameter: **64mm**
Color: **White holder. Green & Yellow Labels**

Features:

- Fit most standard scaffolding tag holders
- Durable and reusable
- Provides a clear inspection record, easy to use.
- UV Resistant, Impact Resistant

Item Code: OP023

Product Name: **Safe Scaffolding Tags**
Material: **Plastic PVC**
Height: **195mm**
width: **145mm**
Thickness: **0.8mm**
Colour: **Green & Yellow Labels**

Features:

- Outdoor durability
- matte-finished surface is easy to write on.
- UV Resistant, Impact Resistant

Item Code: OP118

Product Name: **whistle**
 Material: **Plastic(ABS)**
 Length: **53mm**
 Width: **20mm**
 Height: **22.5mm**
 Lanyard length: **45cm**
 Sound volume: **115dB**
 Colour: **Red Yellow**

Features:

- Pealess with no moving parts to freeze or jam
- Waterproof with non-corrosive lanyard ring
- Produces 115 dB

Item Code: OP019

Product Name: **Safety Rebar Caps**
 Material: **Plastic(PP)**
 Cap diameter: **60mm**
 Pole diameter: **38mm**
 Height: **55mm**
 Fit Rebar size: **8~20/18~25/22~32/32-45**
 Colour: **Red Yellow Orange**

Features:

- High strength, high toughness.
- Add reflective materials to improve visibility
- Fitted to covering the exposed reinforcement ends.
- Also used for landscape and surveying stake

Item Code: IL001

Product Name: **Emergency exit light**
 Material: **Aluminum + glass panel Double side glass**
 Operating voltage: **AC 110v-220v 50Hz**
 Power: **3W**
 Battery : **NI-CD1.2V 800mah**
 Light source type: **LED green light 6*F5 LED**
 Emergency transition time: **3s**
 Emergency lighting time: **90 min**
 Length: **355mm**
 Width: **145mm**
 Height: **25mm**

Features:

- Die-cast aluminum body with baked epoxy powder coat finish
- For durability and corrosion resistance
- Toughened glass transparent cover with high light transmittance
- Ultra-bright LED light source, servicelife is up to 50,000 hours
- Designed with test buttons, convenient for regularly maintenance
- The light fitting is designed with amain power indicator, failure and charging indicator, to the using status

Item Code: RT-01

Product Name: **Rescue tripod with winch**
 Data Sheet: **Description**
 Material: **Aluminum Alloy +Steel**
 Adjustable Working Height: **1.15m to 2.15m**
 Steel Wire Length: **20m&30m**
 Steel wire Diameter: **4.8mm**
 Wheelbase Footprint: **1.8m Diameter**
 Max Load Capacity: **500kg**
 Sample weight: **< 30kg**
 Executive Standard: **EN795:2012,EN1496:2017,EN 360:2002,**

Features:

- Mobile rescue tripod, suitable for lifting heavy objects, fixing and rescue use;
- Equipped with adjustable locking legs and three anchor connections, economical for many restricted space, fall environment and rescue environment;
- Aluminum tripod, corrosion resistant coating, high strength;
- Auto-locking system at the head to ensure stability of the leg;
- 2-stage independent adjustable telescopic leg, fixed with stainless steel rod, with collapsible rubber sole and sharp edge at the bottom. Independent adjustable legs for uneven surfaces.
- A built-in pulley and top structure, excellent performance and reliability;
- Equipped with a release latch and a two-way rotating handle for rescue and lifting operations;
- Steel double action terminal connection lock;
- The tripod configuration supports the safety chain to prevent the risk of falling;

Item Code: SP300

Product Name: **4 DRUM SPILL PALLET**
 Material: **PE**
 pipe diameter: **25mm**
 Length: **1300mm**
 Width: **1300mm**
 Height: **300mm**
 Sump Capacity: **260L/95 US GAL**
 Static Load: **2600KG**
 Dynamic Load: **1200KG**
 Colour: **Yellow+Black**
 weight: **33Kg**

Features:

- Pallet is formed once and has a long life.
- It could be freely matched with other types of pallets, combined into a leak-proof platform, and the operation is more flexible.
- This product could be moved by forklift or hydraulic truck.
- Different holding leakage volumes could meet various actual operation requirements.
- The grid plate is stable and durable, and can be quickly seperated and used.
- It could reasonable use of space, stacking could reduce the floor area, and the operation is flexible and easy

Item Code: RT-02

Product Name: **Steel wire fall arrest**
 Data Sheet: **Description**
 Shell material: **ABS**
 Safety ropes material : **Wire**
 Safety belts material : **Stainless steel**
 Diameter: **Φ4.5mm**
 Working Length (Radius): **5M / 10M**
 Locking speed : **1m/s**
 Arresting distance: **100CM**
 Usage : **Falling protecting in high height working**
 Max Load Capacity: **140kg**
 Color: **Orange/ Red, blue yellow, green (Customizable)**
 Executive Standard: **EN 360:2002, EN 362:2004, ANSI Z359.14-2021 Glass1**

Features:

- Flexible, light weight, practical and comfortable fall brake equipment;
- Advanced technology provides self-locking device and high safety coefficient
- Suitable for all kinds of high-altitude work, so that you can freely move without worrying about the risk of falling;
- With environmentally sealed dynamic components and flexible unwinding system
- Use a locking design similar to a car seat belt to brake at the moment of a fall;
- Internal and external energy absorption systems and flame retardant;
- Built-in potential energy absorber and universal lock with fall indication;
- Innovative design that easily connects to the back D-ring of any fall protection harness
- Flexible and durable for easy use, assemble and disassemble
- Vertical use in various hazardous conditions for personnel weighing up to 140Kg
- No need to change suspension point in working due to multi-distance radius

Item Code: FEC01

Product Name: **Fire Extinguisher Covers**
 Material: **Polyester fabrics+PVC coating**
 Length: **54cm/65cm/82cm**
 Width: **32cm/43cm/43cm**
 Colour: **Red**

Features:

- Durable fire extinguisher cover for indoor or outdoor use.
- Protect fire extinguishers from environmental factors and keep them clean and dry.
- Clear observation window for quick inspection of the status of fire extinguishers.
