Ningbo Guanyi Electrical Technology Co., Ltd. is located in Xinqu Town Industrial Zone, Cixi City — China's renowned home appliance manufacturing base. It is a technology-oriented enterprise specializing in the R&D, production and sales of health foot bath massagers.

The company owns production bases and warehousing centers covering a total area of 18,000 square meters, with 250 employees including around 20 professional technicians. It is equipped with 10 advanced production assembly lines, 22 large-tonnage injection molding machines, and a complete range of auxiliary production, testing and experimental equipment. The daily production capacity reaches 15,000 units, the finished product inventory capacity is 300,000 units, and the annual output exceeds 2 million units, ranking the company among the large-scale and high-capacity manufacturers in the foot bath appliance industry.

Since its establishment, the company has always taken technological innovation as the core. With seven years of

exploration and accumulation, its professional R&D team integrates market feedback with product design to drive mutual upgrading, and has developed more than dozens of foot bath massager products, obtaining over 15 patents including invention patents and utility model patents. With technologically advanced, safe, stable and full-range product lines, as well as a strict and effective quality control system, the company has become a core supplier to more than ten well-known brands such as Konka and Royalstar. It has fully gained the trust of partners, recognition from consumers and widespread market reputation.

Focusing on improving management efficiency and professional literacy, the company attaches great importance to management system optimization and talent training. Through process optimization, standardized regulations, effective control of key links and the introduction of intelligent management systems, it has gradually built a clear-goal, united and trustworthy management team, providing strong support and guarantee for the long-term development and expansion of the enterprise.
