企业简介 Company Profile

CBB65-R1

奇博电器是一家集开发、研制、生产电容器的专业公司，主要致力于金属化薄膜电容器的开发、研制和生产。

公司拥有实力雄厚的研发中心和经验丰富的技术服务团队，公司通过了ISO9001，ISO14001体系认证。

主要产品有：CBB60、CBB61、CBB65系列交流电动机电容器、CBB66防爆型金卤灯专用电容器、CBB80型管形荧光灯电容器和其他放电线路用功率因数补偿电容器、BCMJ自愈式低压并联电容器、AKMJ与BKMJ型滤波电容器、CBG轨道电路补偿电容器、DC-Link直流支撑电容器等金属化聚丙烯薄膜介质电容器，以及CD60型电机启动用铝电解电容器；以及其他特种电容器等。

产品通过了CQC、UL、C-UL、CE、TUV、VDE、CSA等国内外认证，并获得多项国家专利。

奇博实施两个战略转型：企业转型从卖产品到卖服务；商业模式转型，从传统商业模式转型为人单合一双赢模式。让每个员工直面市场，更加敏捷快速地获取并满足碎片化、个性化的用户需求。

JINAN RETEKOOL INC is a professional manufacturer of capacitor.

The production base is NINGGUO QIBO ELECTRONIC. The base is a professional company of which develop and produce capacitor.it is mainly engaged in the development and production of metallized film capacitors.

The company has strong development center and experienced technical service team,and it has passed the ISO9001 , ISO14001 system certification.

The main products are:The series of CBB60、CBB61、CBB65 AC motor capacitor,CBB66 of explosion proof type capacitor for metal halide lamp,CBB80 of power factor compensation capacitors for tubular fluorescent lamps and other discharge lamps,BCMJ of self healing low voltage shunt capacitor,AKMJ and BKMJ of filter capacitor,CBG of track circuit compensation capacitor,D C - L i n k of metallized polypropylene film dielectric capacitors with DC support capacitors and other special capacitors.

The products passed the CQC、UL、C-UL、CE、TUV、VDE、CSA etc..domestic and international certification,and get a lot nation patent.

QIBO carry out two strategic transformation:Business transformation from selling product to selling service.business model transformation,from traditional business model into win win model.every employee face the market,more quicker to get and satisfied customer's fragmentation and personalization.

产品特点/product features

- ◆ 金属外壳，塑料绝缘，绝缘油浸渍，内部有压力防护装置，安全可靠；体积小、重量轻、绝缘电阻高、耐电压高、损耗小、自愈性优良、性能稳定等优点
- ◆ Metal case, plastic insulation, insulation oil impregnation, with inner pressure protection device, safe and reliable; small volume、light weight、high insulation resistance、High withstand voltage、low dissipation factor、good self-healing、stable performance and etc.

产品应用product application

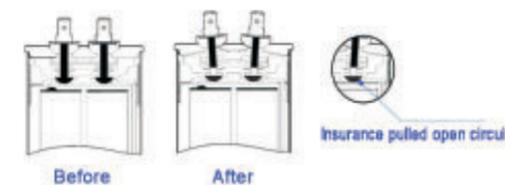

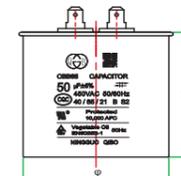

- ◆ 空调、压缩机、冷干机等单相系统供电的异步电动机以及三相异步电机使用单相供电
- ◆ Air conditioning、compressor、Cold dryer or other Single-phase power supply system asynchronous motor and Three-phase asynchronous motor uses single phase power supply.

产品特点/product features

- ◆ CD60启动电容器主要是空调、冷柜、压缩机、水泵等单相系统供电的异步电动机以及三相异步电机使用单相供电中，提供电机大转矩启动。
- ◆ Cd60 starter capacitor mainly is used to High torque motor start, such as air conditioning, Freezer, compressor, water pump or other Single-phase power supply system asynchronous motor and Three-phase asynchronous motor use single phase power supply.

主要技术指标:

结构图

Structure diagram

产品特点/product features

- ◆ CD60型酚醛树脂外壳启动电容器上串接上PTC原件。电子继电器开关及电子逆心开关，取代传统的机械逆心开关。
- ◆ CD60 phenolic aldehyde resin shell start capacitor connect to PTC original. Electronic relay switch and electronic centrifugal switch, replace the traditional mechanical centrifugal switch.

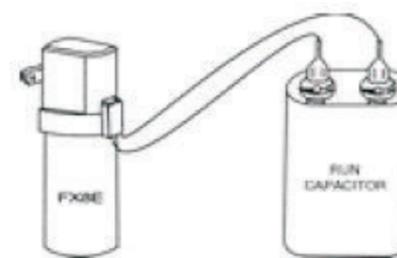

产品应用product application

- ◆ 冷柜、冰箱、空调。
- ◆ Freezer, Refrigerator, Air conditioning

产品特点/product features

- ◆ 内部有放电电阻和过热、过电流保护装置，产品安全可靠；产品具有体积小、重量轻、绝缘电阻高、耐电压高、损耗小、自愈性优良，性能稳定；
- ◆ With inner discharge resistance and overheat, overcurrent protection device, product safe and reliable.
Product with small volume, light weight, high insulation resistance, high withstand voltage, low dissipation factor, good self-healing, stable performance.

产品应用product application

- ◆ 适用于高压钠灯、汞灯的启动和补偿，提高功率因数。
- ◆ Applicable to start and compensation of high pressure sodium lamp, mercury board, improve the power factor.

产品特点/product features

- ◆ 产品具有体积小、重量轻、绝缘电阻高、耐电压高、损耗小、自愈性优良、性能稳点等优点；
- ◆ The product has its advantage of small volume, light-weight, high insulation resistance, high voltage resistance, low loss, good self-healing performance, stable point.

产品应用product application

- ◆ 适用于汽油发电机和柴油发电机的激磁发电；
空调风扇、电风扇、油烟机单相系统供电的异步电动机以及三相异步电机使用单相供电；
- ◆ Suitable for gasoline generator and diesel generator excitation power
The utility model is suitable for the single-phase electric power supply system of a fan, an electric fan, an oil fume exhauster and a three-phase asynchronous motor

产品特点/product features

- ◆ 塑料外壳装，阻燃环氧树脂灌封；
自愈性能良好，抗振动及防水性能可靠；
双套线绝缘电缆轴向引出，引出端为专用塞钉；
自感 (ESL) 小，等效串联电阻 (ESR) 小；
高脉冲电流，高dv/dt承受能力
耐高频大电流承受能力
- ◆ Plastic packing, flame retardant epoxy resin embedment
Good self-healing, reliable vibration resistance and waterproof performance
Good self-healing, reliable vibration resistance and waterproof performance
Self inductance (ESL), equivalent series resistance (ESR) small;
High pulse charge flow, high dv/dt withstand capability
High frequency large current capacity

产品应用product application

- ◆ 无绝缘轨道电路中起滤波、储能、辅助变流器、补偿等作用。
- ◆ The jointless track circuit in filter, energy storage, auxiliary converter, compensation effect
