# Laboratory Consumables Solutions

ZHEJIANG RONGDA BIOTECHNOLOGY CO., LTD.

# INTRODUCTION

Zhejiang Rongda Biotechnology Co., Ltd. was established in 2018. Our company's headquarter is located in Huangyan, Taizhou, an economically developed and scenic eastern coastal area in Zhejiang Province. We serve our customers with a science-based and quality-oriented spirit. Our company has a strong professional R&D team. At the same time, we have long-term cooperation with well-known domestic universities and scientific research institutions, and signed the contract of new products development and reagent experiments.

We adhere to the belief of "providing high-quality services for bioscience" and found the AMNGENT brand, focusing on cell culture, molecular biological consumables, biological sample library construction, safety management and the development and production of Class I and Class II diagnostic reagents. We continue to invest in high-end production equipment in the industry and introduce professional process technicians to form a new scientific management team. Our products have passed ISO9001,ISO13485, CE and other quality system certifications. AMNGENT continues to grow and develop, and our products are exported to companies in more than 80 countries and regions such as the United States and the European Union.

For the early-stage design and development of molds, our company also has a high-quality, professional and persistent team that makes full use of modern CAD/CAM design and the capabilities of a comprehensive CNC machining center to manufacture high-quality medical consumables and various molds.

ISO9001 ISO13485

# Centrifuge Tubes

## Product Feature

- Medical Grade material : PP tube & HDPE cap.  USP and DMF report available
- Endotoxin free ,Non-Cytotoxin
- DNase & RNase free
- Heavy Metal free
- Sterile avaliable
- Standard 100,000 clean workshop producing
- CE

Above mentioned can provide third-party reports  or Associated product report

- 15ml & 50ml conical bottom, 50ml flat bottom . Sterility, foam rack and bag pack for option
- Scale range : within ±0.1
- Tube two-tone  UV printing, Black scale mark+ white
- writing area, Clearly identify
- White writing area suitable for watercolor pen,Mark pen,Whiteboard writing,clearly and tidy

- Double threaded cap design for one-handed operation
- Cap rotational screw thread design ,match with tube smooth and easy,  matching without damping feel
- Sealing : under-90kap ,15mins testing.40°C constant temperature test .Test reports are available
- Temperature range: -86 to 121 °C (-186F to 250 F)
- Max RCF:15ml 12000G  50ML  9500G

Unit: mm

# 5ml/10ml Pipette Tips

## Product Feature

- Compatible with many pipettes brandes
- Clear scale mark,transparent body and the volume can be visually confirmed
- No DNase,RNA enzyme,no pyrogen
- Can be sterilized under high pressure,with a temperature tolerance range of-80~121℃

| Item No. | Volume | Color | Filter | Non-enzyme | Packing |

# Transfer Pipettes

## Product Feature

- High Quality PE material, high toughness, high transparency
- Tube Body and Bulk thickening design , easy for dropper and cell blowing
- Elastic suction pouch, Good Rebound recovery
- Slender and soft,Easy to transfer liquids quickly,instead of rubber dropper
- Sterile 15kgy
- Pack : Plastic-paper individually packed and bulk packed

| Item No. | Volume | Length | Sterile | Non-enzyme | Type | Packing |

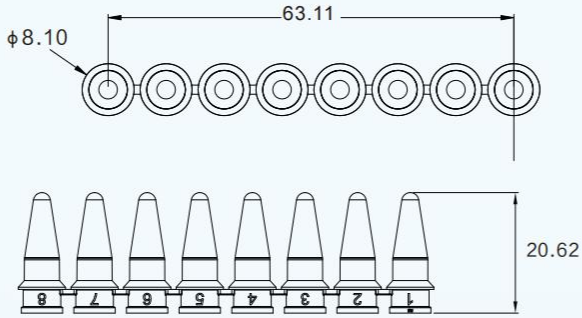
# PCR Tubes

Dimensions=mm



320108

## Product Feature

- Medical Grade PP
- Ultrathin tube, Extremely fast temperature conduction
- Flat cap design,suitable for real-time quantification PCR test
- Sealed design,Effectively avoid exploding cap problems
- DNase & RNase free ,Non-Pyrogen
- Working tempreture : -20degree -100degree , suitable for normal brand PCR machine,support for fully supported rotor
- Centrifugal force: 6000G

| Order No. | Volume | Color | Color | Cap | Non-enzyme | Packing |
|---|---|---|---|---|---|---|
| 310008 | 0.1ml,8-strip | Transparent | AXYGEN | Flat | √ | 125pcs/rack, 10racks/case |

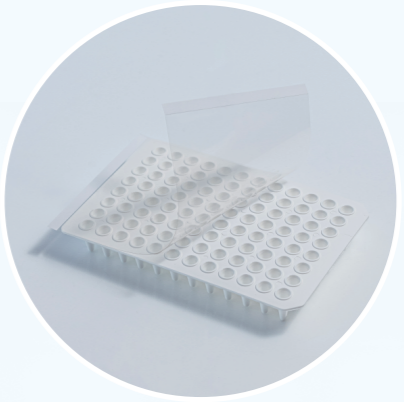
# PCR Plates



## Product Feature

- 1.Medical grade polypropylene material
- 2.Ultra-thin tube wall, extremely fast temperature conduction
- 3.Suitable for real-time fluorescence quantitative experiments
- 4.Available in non-skirt, half skirt and full skirt
- 5.Elevated edge of the hole can better prevent cross contamin ation,and the plate design better for for self-adhesive film
- 6.DNase free, RNase free, Endotoxin free
- 7.Sealing film is made of medical grade polypropylene
- 8.No autofluorescence to ensure experimental accuracy
- 9.Pressure-sensitive film to improve experimental convenience and optical data accuracy

| Order No. | Volume | Color | Skirt | Type | Non-enzyme | Packing |

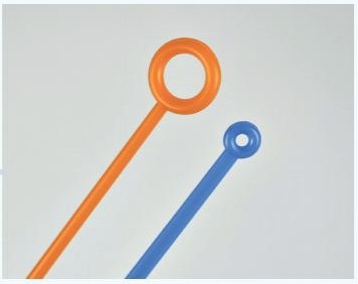
# Inoculating Loops&Needles



## Product Feature

- Medical grade HIPS material
- High product toughness,Convenient for marking and point planting
- Size 1ul and 10ul ,high Accuracy of inoculation volume
- The other end ok use for indicating needle
- E-beam sterile
- Sealed bag, cardboard instruction sheet inside , protect product with good shape .

# Serological Pipettes

## Product Feature

- Medical grade PS material
- Volume options : 1ml ----100ml 7 different colors
- Ascending and descending bi-directional scale design can intuitively read the amount of remaining liquid
- The polyolefin filter element can effectively prevent the damage of excessive suction to pipetting equipment
- E-beam sterile ,Non pyrogens, non cytotoxins, DNase& RNase free
- Package style : paper-plastic ;plastic -plastic bag for options, effectively prevent pollution, convenient access

# Cell Culture Dishes

Dimensions=mm

## Product Feature

- High transparency polystyrene material
- Bottom surface is flat and transparent, and will not emit light and distort under the microscope
- Stack positioning ring, easy to stack
- Plate cover ventilation grille design to ensure gas exchange
- The culture surface was treated by vacuum plasma (TC), and the cell adhesion was good
- Electron beam sterilization, sterile packaging
- no pyrogens , no endotoxin

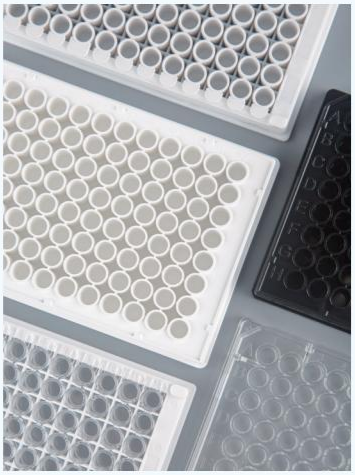
# ELISA Plate

## Product Feature



- Medical grade polystyrene material
- Removable for use in ELISA experiments
- In accordance with ANSI-SBS standard, CV value between holes <5%
- No DNase, RNase, no endotoxin
- Transparent plate: Suitable for quantitative and qualitative solid-phase immunoassay and combination assay
- White plate: suitable for self-luminescence, chemiluminescence
- Black plate: Suitable for fluorescence immunoassay and combination assay

| Order No. | Volume | Color | Type | Sterile | Binding | Packing |
|---|---|---|---|---|---|---|
| 770001 | 0.3ml | Transparent | Non-detachable Medium | X | Middle | 10pcs/bag, 20bags/case |
| 770010 | 0.3ml | Transparent | Non-detachable High | X | High | 10pcs/bag, 20bags/case |
| 770002 | 0.3ml | White | Non-detachable Medium | X | Middle | 10pcs/bag, 20bags/case |
| 770020 | 0.3ml | White | Non-detachable High | X | High | 10pcs/bag, 20bags/case |
| 770003 | 0.3ml | Black | Non-detachable Medium | X | Middle | 10pcs/bag, 20bags/case |
| 770030 | 0.3ml | Black | Non-detachable High | X | High | 10pcs/bag, 20bags/case |
| 772001 | 0.4ml | Transparent | F8*12 | X | High | 10pcs/bag, 20bags/case |
