

SUPERNOVA

Established in 2009, Yancheng Supernova Digital Science & Technology Co., Ltd. specializes in the research, development, and production of sublimation blanks and laser blanks. Our office is located at Room 3110, Building 6, Financial City, No. 5 Century Avenue, Yandu District, Yancheng City, Jiangsu Province, and our manufacturing facility is based at Group 1, Longnian Village, Nanyang Town, Tinghu District, Yancheng City, Jiangsu Province. We are continuously committed to innovation and technological advancement in sublimation blanks and laser blanks:

- 2009: Commenced trading of sublimation blanks
- 2012: Achieved in-house production at our own manufacturing facility
- 2016: Developed laserable leatherette blanks
- 2024: Expanded our product line to include laser engraving acrylic sheets

Laserable Leatherette Sheets

Discover versatility in crafting with this premium laserable leatherette sheet stock

featuring a self-adhesive backing for effortless application. Designed for precision laser cutting and engraving, the smooth faux leather surface flawlessly showcases intricate designs, logos, or text, making it ideal for signage, crafts, DIY projects, or custom branding. The adhesive layer ensures secure attachment to various surfaces—wood, metal, plastic, or glass—while the durable material maintains a sleek, professional finish. Lightweight and easy to handle, this sheet stock combines creativity with convenience, allowing makers, designers, and businesses to elevate projects with customizable, laser-engravable elegance.

Size:

Sheet Size: 12"x18"(30*45cm)

Sheet Size: 12"x24"(30*60cm)

Roll: Width: 1.36M; Length: 40Yards

Custom Size Available

Backing:

With Adhesive or Without Adhesive

Hot Melt Adhesive will be applied if you ask

Thickness:

0.8mm/1.2mm/1.5mm/1.8mm

Laserable Leatherette Blanks

Laserable Leatherette offers the look and feel of genuine leather at a fraction of the price. This richly textured, synthetic material resists water spots, cleans easily, and is durable enough for the rigors of daily use. The high quality workmanship of each leatherette piece is sure to impress every recipient with its elegant individuality. Laserable leatherette items can be personalized through laser engraving for a sharp contrast or UV printing for a full color effect.

Sublimation Materials & Supplies

Our sublimation PU leather offers a premium canvas for vibrant, full-color customization at an accessible price point. This specially engineered synthetic material features a unique polymer coating that permanently bonds with sublimation inks under heat and pressure, producing photo-quality images that resist fading, cracking, and peeling. The smooth, consistent surface ensures exceptional color reproduction and sharp detail with every transfer. Designed to withstand the demands of daily use, it cleans easily and maintains its soft, natural feel after printing. Each piece is manufactured to strict quality standards, guaranteeing reliable results for every project. Sublimation PU leather works seamlessly with standard heat press equipment and is ideal for creating personalized apparel, fashion accessories, promotional merchandise, and custom gifts. The finished pieces deliver brilliant, long-lasting color that captures every nuance of your original design, ensuring each recipient receives a truly impressive, professional-grade product.

Laser Engraving Paper (Lasered out Gold)

Our laser engraving paper starts as natural kraft. Run it through a CO₂ laser, and the engraved areas turn a permanent golden color. No foil. No paint. No extra steps. Just clean laser heat revealing a warm, metallic gold

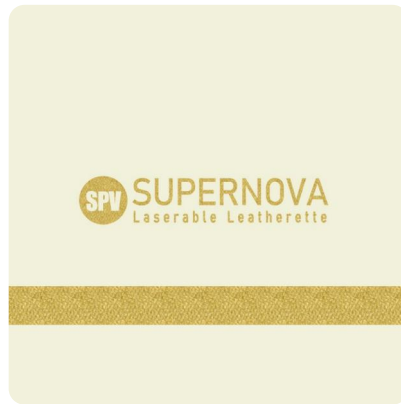

finish. This is not printing or foil stamping – it's laser transformation. The heat reacts with the natural fibers in the kraft paper, creating a permanent gold tone that won't fade, rub off, or yellow over time.

Laserable Acrylic

Our laserable acrylic sheets are engineered for precision engraving and cutting. Unlike standard acrylic, our material is formulated to reveal crisp, permanent marks with high contrast – no special coatings or post-processing required. Available in two-color and three-color options, these sheets allow you to create stunning layered designs in a single pass.
