# Who We Are

Established in 1980, the headquarters of Zhejiang Zhanghua Health & Beauty Hair Industry Co., Ltd. finds its home in the picturesque Huangyan District, nestled within the heart of Taizhou City, Zhejiang Province. This region is renowned for its breathtaking landscapes and its abundance of Chinese honey oranges, adding to the allure of our location.

Guided by our unwavering tenet, "We do not settle for anything less than 100% perfection in our products, ensuring absolute satisfaction for our consumers," we have emerged as a leading national cosmetics enterprise, specializing in the field of hairdressing. Within China, our company boasts the most extensive range of haircare products, offered in a diverse spectrum of colors and varieties. We take immense pride in the diverse range we offer, catering to the unique needs of our clientele.

Our commitment to excellence has been endorsed through the attainment of prestigious certifications, including the esteemed ISO22716 certification from the European Union and the globally recognized GMPC international certification from the United States. As a testament to our dedication to quality, our products have earned acclaim in numerous countries and regions, including the United States and Israel, where they have found a loyal customer base.

# Who We Are

Our core belief, "Quality always takes precedence, with reputation held in the highest regard," has been the guiding principle steering our operations since 1995. We have implemented a stringent quality assurance system, ensuring that not a single defective product finds its way into the market, a remarkable achievement symbolizing our unwavering commitment to quality.

Over the years, our esteemed Tianfeng brand was honored with the prestigious title of Zhejiang Top Brand in 2007, signifying its stature within the province. In the same year, our Savol brand received recognition as a China Well-known Trademark, a testament to its popularity and recognition on a national scale. In 2008, our Sijing brand was bestowed with the title of Shanghai Famous Trademark, while our Savol brand was celebrated as a Zhejiang Name Brand in 2014. Notably, our Sijing brand further solidified its standing as a top player by earning the esteemed title of Shanghai Top Brand in the same year.

We extend a warm and open invitation to customers, both domestic and international, to explore the numerous avenues of collaboration with us. Your journey to discovering top-notch haircare solutions begins here, with Zhejiang Zhanghua Health & Beauty Hair Industry Co., Ltd.

# Our History

In 1980, Zhejiang Savol (Savol) Health & Beauty Hair Industry Co., Ltd. was founded.

1980

In 1985, the researchers at Savol successfully developed the Tianfeng Advanced Hair Dye, an invention that free hair salons in China from the tedious steps of heating during hair dyeing. Applying this product made hair dyeing safer than traditional boiling methods, and Savol took the lead in hair dyeing technology in the country as a result. For over 20 years, the Tianfeng Advanced Hair Dye has consistently outperformed similar products in terms of sales volume nationwide in China.

1985

In 1996, we were the first to introduce a quick and convenient "5-minute" hair dyeing and conditioning cream to the market - the Savol Instant Black Hair Dye. This innovative product revolutionized home hair dyeing, making it simple and enjoyable for everyone. The Savol Instant Black Hair Dye quickly gained popularity and recognition, receiving numerous international awards for its outstanding performance. With its time-saving formula and impressive results, it became a favorite choice for those seeking a quick and effective solution for their hair color needs.

1996

In 1999, our second production base, Shanghai Savol Health Cosmetics Co., Ltd., was established, marking a significant milestone in our company's expansion. This state-of-the-art facility was equipped with top-of-the-line modern production equipment, laying a solid foundation for the production of high-quality products. The establishment of Shanghai Savol Health Cosmetics Co., Ltd. not only allowed us to increase our manufacturing capacity but also ensured that we upheld our commitment to delivering excellence in every aspect of our operations.

1999

In 2000, we became the first company in the hair dye industry in mainland of China to be certified with ISO14001 and ISO9001. It was a significant milestone for us, as it demonstrated our commitment to environmental management and quality assurance. In the same year, we introduced a breakthrough product in the market - the Sijing Hair Color Cream, which was exclusively formulated with Chinese mulberry silk essence. By incorporating the essence of Eastern silk, our hair dye cream offered a unique and luxurious experience to our customers. The Sijing Hair Color Cream not only provided vibrant and long-lasting color options with its 57 shades, but it also enhanced the smoothness and silkiness of the hair. With the introduction of the Sijing Hair Color Cream, we ushered the domestic hair dye industry into an era of international advancement. Our innovative approach and dedication to incorporating natural ingredients have proven to be successful, providing customers with a glamorous and exceptional hair dyeing experience.

2000

# Our History

In 2001, we successfully developed the first deep-sea plant-based hair dyeing and conditioning cream - the Savol Deep Sea Seaweed Hair Color Cream. This groundbreaking product did not contain any p-Phenylenediamine (PPD), making it exceptionally safe for consumers to use. For those concerned about potential side effects, we recommended choosing the Savol Deep Sea Seaweed Hair Color Cream as it will provide you with a worry-free and gentle hair dyeing experience. Our commitment to safety and innovation allowed us to cater to the diverse needs and preferences of our customers, ensuring their satisfaction and peace of mind.

2001

In 2002, we successfully developed the Savol Ecological Hair Conditioning and Dye Cream using high-tech ingredients such as microbial Ganoderma lucidum (reishi mushroom). This breakthrough formula brought good news for individuals with sensitive skin by ensuring that even those prone to allergies would not experience any adverse reactions. The Savol Ecological Hair Conditioning and Dye Cream quickly gained recognition on the global stage, ranking among the world's leading hair dye products. In the same year, our "Savol" brand hair dye products achieved an impressive second place in the national random inspection organized by the State Administration for Market Regulation, reaffirming our commitment to producing high-quality and safe products.

2002

In 2003, our "Savol" brand hair dye products achieved the remarkable first place in the national random inspection organized by the State Administration for Market Regulation, affirming our commitment to producing high-quality and safe products. This recognition on the national level further solidified our position as a leading brand in the hair dye industry. We continuously strive to meet and exceed the stringent quality standards set by regulatory authorities, ensuring the satisfaction and trust of our customers.

2003

In 2004, our "Savol" brand hair dye products once again secured the top spot in the national random inspection organized by the State Administration for Market Regulation. This consecutive first-place ranking in the national inspection confirms our unwavering commitment to producing high-quality and safe hair dye products. It is a testament to our dedication to meeting and exceeding the strict quality standards set by regulatory authorities, and it reinforces the trust and confidence our customers place in our brand. We will continue to innovate and improve our products to ensure the utmost satisfaction and safety for our valued customers.

2004

In 2006, we introduced the Savol Natural Plant Hair Coloring Cream (Chinese Black), which is free from p-Phenylenediamine (PPD) and hydrogen peroxide. This groundbreaking hair dye product is not only hypoallergenic and non-irritating but also exceptionally safe. Its superior quality surpasses that of both domestic and international manufacturers, setting a new standard in healthy hair coloring. We take great pride in offering this exceptional hair dye product that is dedicated to the health and well-being of all individuals worldwide.

2006

# Our History

In 2007, our "Tianfeng" brand was awarded the "Zhejiang Name Brand" title, while the "Savol" trademark was honored with the title of "China Well-known Trademark".

From 2009 to 2011, our "Savol" hair dye products consistently held the top spot in terms of market share among similar products. These achievements highlight our relentless pursuit of excellence and the recognition we have received from both regional and national institutions for our high-quality hair dye products. We remain dedicated to providing top-notch products and maintaining our market leadership in the coming years.

In 2014, Zhejiang Savol (Savol) Health and Beauty Hair Industry Co., Ltd. was recognized by the Zhejiang Provincial Department of Science and Technology as a Zhejiang Provincial Science and Technology-based Small and Medium-sized Enterprise.

In 2019, Savol was approved and became a municipal high-tech enterprise research and development center for green and safe hair dye.

In 2020, Savol drafted and formulated the group standard of "Hot Oil Hair Treatment and Dye Cream" for the defined quality label of Zhejiang Province. Savol was recognized as a national high-tech enterprise by the Leading Group for the Recognition and Management of National High-tech Enterprises, composed of the Ministry of Science and Technology, the Ministry of Finance, and the Taxation Bureau. In the same year, Savol obtained European Union ISO22716 certification, American GMPC certification, and ISO45001 certification for Occupational Health and Safety Management System. Savol was designated as a water-saving enterprise in Taizhou City for the year 2020 by the People's Government of Taizhou City.

# Our History

In 2021, Savol invented a breakthrough two-tube all-plant hair dye cream called "Tianfeng Herbal Oil- fused Hair Dye Cream (Natural Black)". This product is the result of 23 years of dedicated research by the Beijing Savol Natural Cosmetics Research Center. Savol's scientists extracted various natural plant chromophores, such as walnut, to darken the hair, while excluding harmful chemicals such as hydrogen peroxide and p-phenylenediamine. This product is a high-tech innovation that uses plants to darken and style hair without the use of chemicals. Currently, Savol is the only company in the world with the technology and capability to produce this product. In 2021, Savol obtained the Quality Mark certification for Zhejiang Manufacturing. They were also recognized by the Zhejiang Provincial Department of Economy and Information Technology as a specialized, refined, and new small and medium-sized enterprise. At the same time, Savol obtained certifications for their intellectual property management system and the integration of information technology and industrialization management system. Additionally, Savol was designated as a City-level Green Factory for the year 2021 by the People's Government of Taizhou City.

2021

In 2022, Savol Qinshui hair dye cream was selected for the "Promotion List of Elderly Products for 2022" by the Ministry of Industry and Information Technology of the People's Republic of China.

## Material Safety Data Sheet 2

NO.2611030059

### SECTION8 EXPLOSURE CONTROL/PPE

**Engineering Controls:**  
Mechanical exhaust required. Safety shower and eye bath.

**Personal Protective Equipment:**  
Respiratory: Wear government approved respirator.  
Eye: Safety glasses.  
Clothing: Wear appropriate protective clothing.  
Hand: Compatible protective gloves.

**Other Protect:**  
No smoking, drinking and eating at working site. Wash thoroughly after handling.

### SECTION9 PHYSICAL/CHEMICAL PROPERTIES

**Appearance:** Claret violet cream  
**Odor:** Weak aromatic odor  
**pH Value:** 3.6 (25°C, 50.0g/L)  
**Solubility:** Partial soluble in water

### SECTION10 STABILITY AND REACTIVITY

**Stability:**  
Stable under normal temperatures and pressures.

**Materials to Avoid:**  
Strong oxidizing agents.

**Hazardous Polymerization:**  
Will not occur.

**Hazardous Decomposition Products:**  
Carbon monoxide, Carbon dioxide, Silicon oxide.

### SECTION11 TOXICOLOGICAL INFORMATION

**Toxicity Data:**  
Propylene glycol: Rat Oral LD<sub>50</sub> 20000mg/kg  
Rabbit Skin LD<sub>50</sub> 20800mg/kg  
Mineral oil: Rat Oral LD<sub>50</sub> >24000mg/kg

**Irritation Data:**  
Irritating to eyes and skin.

### SECTION12 ECOLOGICAL INFORMATION

**Ecotoxicity:**  
Propylene glycol: Toxicity to fish mortality NOEC - Pimephales promelas (fathead minnow) - 52930 mg/l - 96 h  
Toxicity to daphnia and other aquatic invertebrates mortality NOEC - Daphnia - 13020 mg/l - 48 h  
EC<sub>50</sub> - Daphnia magna (Water flea) - >10000 mg/l - 48 h  
Mineral oil: Toxicity to fish LC<sub>50</sub> - Oncorhynchus mykiss (rainbow trout) - > 100 mg/l - 96 h

# Product Description

- **Super Low Allergy High-Tech Formula:** This product features an advanced formula with exceptionally low allergenic potential. It does not contain p-Phenylenediamine, hydrogen peroxide, resorcinol, ammonia, or chemical dyes, making it a safe and hypoallergenic choice.
- **All-plant-Based Dye Technology:** A groundbreaking breakthrough in the use of all-plant dyes, extracting a variety of natural black hair components from plants. It does not contain p-Phenylenediamine, hydrogen peroxide, resorcinol, ammonia, or chemical dyes, effectively addressing the global challenge of hair dye allergies.
- **Exclusive Global Production:** Savol's pioneering technology, leading the world by over a decade, has greatly promoted the leap towards healthy hair dyeing, marking a significant milestone. Many consumers who experienced allergies using other hair dyes have found complete relief after using this product.
- **Enriched with Natural Ingredients:** This product contains pure natural ingredients such as hydrolyzed wheat protein, red reishi mushroom, turmeric, silk protein, ginseng, ginkgo biloba, and polygonum multiflorum. These ingredients provide remarkable nourishment for the hair, leaving it fragrant and achieving natural hair coloring, styling, and care. The color is long-lasting, vibrant, and natural.
- **Reduces Hair Loss and Promotes Hair Growth:** Each package includes anti-hair loss and hair growth-promoting lotions, effectively reducing hair loss and encouraging new hair growth.

# Product Description

- Specially formulated for sensitive skin, free from p-Phenylenediamine, non-allergenic, outstanding coverage for white hair, ammonia-free plant-based dye, enriched with over ten types of floral extracts, along with extracts from Polygonum multiflorum, Thuja orientalis leaves, sesame seeds, and golden peptide hair care, significantly alleviates hair loss.
- This product holds a special administrative license for domestic specific purposes issued by the National Medical Products Administration, License Number: National Cosmetics Special Character 20230594.
- Containing no p-Phenylenediamine, this product is non-irritating, making it a boon for sensitive skin. It is named "Blossom" because it incorporates extracts from nine different flowers, providing significant nourishment for the scalp and hair, repairing damaged hair, and leaving the hair naturally lustrous and silky. These flowers include lavender, clove flower, lily flower, calendula, French rose, Tahiti gardenia, chrysanthemum, jasmine, rose, and sunflower. Additionally, it also contains hydrolyzed wheat protein and silk essence.
- In addition to the unique floral extracts in the cream, the hair care section of this product utilizes the precious high-tech ingredient known as golden peptide. Specifically, this refers to Acetyl Hexapeptide-8, a highly active peptide that offers remarkable effects such as antioxidation, anti-aging, cell regeneration, wrinkle reduction, and moisturization. It delivers significant results with minimal side effects, a feature typically found in high-end cosmetics. For instance, top skincare brand La Mer charges thousands of dollars for a small jar of their cream. Golden peptide is essentially a type of protein found in the human body, but as the body ages, its ability to produce this substance declines significantly. Golden peptide's anti-aging effects include repairing and promoting cell growth, making it highly effective in improving the condition of hair follicles and stimulating their vitality. As a result, this product provides excellent hair care and hair loss prevention. If you used to lose 10 strands of hair every time you combed your hair, with this product, you will only lose 5.

# Tianfeng Herbal Conditioning MOUSTACHE AND BEARD Dye Lotion 2.0 42ml

1. Usage Instructions: This product can be used for both hair, moustache and beard coloring, providing a natural shade. One bag of Tianfeng Clear Water Black Hair is sufficient for hair or beard coloring.
2. Put on the included gloves. Since each package contains two separate compartments with agent 1 and agent 2 respectively, it is essential to cut open the entire bag before use. Ensure that all the dye is squeezed into a plastic bowl at once and mix thoroughly. Begin applying from the noticeable areas of white hair or beard, quickly and repeatedly rub it through the hair, combing it evenly with a comb. Allow it to stay for 15 minutes (for lower temperatures or coarser hair, you may extend the application time slightly). As beard hair is generally coarser than head hair, please appropriately extend the application time when using this product for beard coloring. Finally, rinse thoroughly with water.
3. Dosage: For short hair or beard, use one bag; for medium-length hair, use two bags; for long hair, use four bags, increasing proportionally.

# Product Description

- Specially developed for sensitive skin, free of p-Phenylenediamine, hypoallergenic, and effectively covers white or gray hair.
- Innovative high-tech botanical coloring and hair care formula.
- Breakthrough use of hyaluronic acid for post-dye shampoo and hair care.
- Approved by the National Medical Products Administration with License No. National Cosmetics Special Approval 20223699.
- Description: This product is formulated for individuals with sensitive skin, offering a hypoallergenic, p-Phenylenediamine-free solution. If you've experienced allergies using products from other manufacturers, we recommend trying this unique and gentle formula. Not only is it free of ammonia, but it also boasts a pleasant fragrance. Our botanical hair dye formula includes extracts of ginseng, ginkgo biloba, tea tree leaves, marigold, and ginger, providing a safe and healthy alternative to chemical dyes.
- What sets this product apart is its innovative use of high-cost hyaluronic acid for post-dye shampoo and hair care. Hyaluronic acid is a naturally occurring biological substance in human skin, known for its unique biological activity, low toxicity, minimal immune response, high biocompatibility, biodegradability, and absorbability. In the context of hair and scalp, it offers excellent nourishing effects, leaving your hair soft and manageable, while also aiding in the repair of damaged hair. Because hyaluronic acid can promote the repair and regeneration of hair follicle cells, it significantly reduces hair loss. The extraction of hyaluronic acid from rare sources such as bovine vitreous, human umbilical cords, and rooster combs comes at a high cost, which reflects in the product's price. As you may know, most skincare products containing hyaluronic acid are priced at over a thousand dollars, such as Shiseido's Vital Perfection series in Japan. We are proud to be one of the very few to utilize this precious ingredient in hair care.

Sijing Silk Essence Hair Dye  
Cream (with Hot Oil Treatment)  
140ml

# Product Description

- Enriched with bio silk protein and plant extracts, offering a dual biological and botanical nourishing effect, remarkable coverage for white hair, and a deeply nourishing formula that is gentle on hair.
- This product holds a special administrative license for domestic specific purposes issued by the National Medical Products Administration, License Number: National Cosmetics Special Character G20161377.
- Silk Essence, or Sijing, a brand under Savol, reflects our breakthrough technology that incorporates bio silk protein into hair dye products, enabling deep hair nourishment while maintaining low allergenicity.
- Bio silk protein shares similarity with human skin and hair, containing 18 amino acids that are readily absorbed by hair, effectively repairing damaged hair, leaving it naturally lustrous and silky. The legendary beauty of women from the Jiangnan region with their fair skin and glossy hair can be attributed to the efficacy of bio silk.
- This product integrates bio silk essence into its coloring cream, along with extracts from Oriental tea tree, Polygonum multiflorum, black mulberry, hops, ginkgo, olive oil, and gardenia, among other plant extracts. It not only dyes the hair but also provides hair care and nourishment, hence the name "Hair Nourishing and Coloring Cream."

# Product Description

- Our products are not merely referred to as hair dye creams but are named "Nourishing and Coloring Creams." Traditional hot oil treatments used heat to facilitate the entry of hair care substances into the hair shaft, leading to the use of "hot" or "焗" in the name. The English term for this is "Hot oil treatment." Nowadays, our "Nourishing and Coloring Creams" no longer require the cumbersome process of heating. For decades, Savol has invested significantly in the technological development of hair dye and care products. Our mainstream hair dye products provide deep hair care alongside coloring, ensuring no hair damage, and leaving hair naturally vibrant and silky. Hence, our products are referred to as "Nourishing and Coloring Creams" or "Hair Nourishing and Coloring Creams," representing a fusion of coloring and hair care.
- This product is available as a 60ml dual-component system, with each package including a comb, gloves, a shoulder cover, ear caps, and a hair cap, along with detailed instructions for easy application. A 30-minute application time yields excellent results, making it suitable for at-home use. For short men's hair, one box can be used 2-3 times; for short women's hair, one box is sufficient for one application, while shoulder-length hair requires two boxes for one application, and regular long hair would need three boxes for one application.
- The Silk Essence brand under Savol enjoys strong brand recognition and is recognized as a Famous Trademark in Shanghai, with this product holding the title of Shanghai Famous Brand.
- Color Options: Ten colors are available, and custom colors can also be accommodated based on customer preferences. The ten standard colors are: Natural Black 156, Brown-Black 153, Chestnut Brown 4.2, Purple-Black 5.0, Purple-Red 3.8, Wine Red 3.2, Green 2.5, Dark Coffee 2.1, Copper Gold 1.8, and Gold Blonde 1.3. Among these, Natural Black 156 and Brown-Black 153 formulas are free from p-Phenylenediamine.

It activates follicle cells, enhances blood circulation in the scalp, and provides ample nutrition, resulting in denser and healthier hair. Additionally, it increases the shine of the hair, making black hair more lustrous and appealing.
- Enhanced Resilience: Savol Wash and Black is rich in nutrients such as collagen, providing sufficient moisture and nourishment to the hair strands. This enhances the resilience and elasticity of the hair. It can repair issues like frizz and split ends, leaving the hair smoother and reducing the likelihood of breakage.
- Long-Lasting Effects: Savol Wash and Black can effectively maintain the black color of the hair for an extended period, resisting fading. Its unique formula adheres closely to the hair surface, ensuring a secure bond for the black dye. Moreover, the formula is gentle, causing no irritation to the scalp or hair, ensuring safe and reliable use.
- In summary, Savol Wash and Black is a hair care product specifically designed to address white hair issues. It gently cleanses the hair, revitalizes with a black shine, enhances hair resilience, and maintains a long-lasting black color.

# Savol Small Bottle Repair Timed Cold Perm Lotion

1. This product is enriched with abundant amino acids, various vitamins, and essential oil extracts from natural plants.
2. Utilizing an advanced dual formula with high-tech precision, it accurately identifies the hair fiber structure, automatically penetrating and restructuring within the hair.
3. Suitable for various hair textures, it creates perfectly and uniform curls.

# Product Description

- Timed Cold Perm Lotion
- Timed cold perm lotion utilizes oxidizing and reducing agents to induce oxidation-reduction reactions within the hair, thereby altering its chemical structure.
- Prior to perming, the timed cold perm lotion is applied to the hair, followed by a specific waiting period (usually 10 to 30 minutes) for the chemical reaction to occur. Unlike traditional perming methods, this process doesn't involve the application of heat to the hair; rather, the perming effect is achieved through the passage of time. Once the designated time has elapsed, the hair needs to be thoroughly washed, followed by the use of post-perming care products for maintenance.
- Savol Small Bottle Repair Timed Cold Perm Lotion
- This product is enriched with abundant amino acids, various vitamins, and essential oil extracts from natural plants. Utilizing an advanced dual formula with high-tech precision, it accurately identifies the hair fiber structure, automatically penetrating and restructuring within the hair. It is suitable for various hair textures, creating perfect and uniform curls. When using this product for perming, the hair retains its color, softens, and sets within the standard time. The operational steps of this product are simple, ensuring no damage to the hair during the perming process. This solution has effectively addressed issues related to hair damage and frizziness during the perming procedure.

# Product Description

- Timed Hot Perming Solution
- Timed hot perming solution is a professional hair treatment product designed to alter the hair's structure through a chemical reaction, resulting in curly or voluminous effects. Compared to traditional perming products, timed heat perming solution offers enhanced safety and softness, minimizing damage to the hair to a greater extent.
- The underlying principle of timed heat perming solution involves the use of oxidizing and reducing agents to initiate oxidation-reduction reactions within the hair, thereby changing its chemical structure. Before the perming process, the timed heat perming solution is applied to the hair and then heated to induce the chemical reaction. Typically, timed heat perming solutions come with a predefined timeframe. After this period, the hair needs to be thoroughly washed, followed by the use of post-perming care products for maintenance.
- Savol Large-Bottle Timed Hot Perm Lotion for Different Hair Types
- This product is enriched with abundant amino acids, various vitamins, and essential oil extracts derived from natural plants. Employing an advanced dual formula with high-tech precision, it accurately recognizes the structure of hair fibers, automatically penetrating and reorganizing within the hair. Suitable for various hair textures, it creates perfectly uniform curls. When using this product for perming, hair color remains vibrant, and the hair softens and sets within the designated time. The operational steps for this product are simple, ensuring zero damage to the hair during the perming process. This solution effectively addresses issues related to hair damage and frizziness during the perming procedure.

Revitalize Your Hair with Savol Tianfeng Herbal Dye Cream: Natural, Vibrant, Affordable!

# Product Description

- "Experience the Beauty of Traditional Herbal Care with Savol Tianfeng Herbal Care Hair Dye Cream (Mini Tianfeng)
- Product Highlights:
- Outstanding Hair Coloring Results: This product delivers excellent hair coloring results with vibrant and fashionable shades. It offers a choice of ten mainstream colors. Simultaneously, it is enriched with a variety of natural plant extracts, including red reishi, Chinese foxglove, polygonum multiflorum, ginseng, ginkgo biloba, silk protein, and hydrolyzed wheat protein. Savol's high-tech formula ensures that the natural nourishing ingredients are rapidly absorbed by the hair, effectively repairing damaged hair and improving hair quality. As a result, it showcases natural colors. In contrast to other brands, this product helps avoid issues like rough and tangled hair and unnatural coloration.
- Mini Botanical Solution: Internally referred to as "Mini Botanical," this product is available in convenient 25ml dual packs, making it affordable and suitable for the general consumer. Given that hair growth is relatively fast, requiring root touch-ups approximately two weeks after dyeing, this small-sized product is a great choice.
- Effective Coloring, Nourishing, and Affordable: This product combines effective hair coloring, hair nourishment, and affordability. It also features a low ammonia formula with a non-irritating scent, providing a pleasant user experience. This product excels in terms of results, hair care, and pricing, maintaining a well-rounded balance.

"Transform Your Look with Ease! Discover Vibrant, PPD-Free Perfection. Gentle, Long-Lasting, and Radiantly Beautiful Hair Awaits You!"

# Product Description

- Introducing our Easy-Appling and High-Quality PPD-Free Permanent Hair Color, Silk Essence Deep-Sea Seaweed Hair Dye and conditioning Cream, the ultimate solution for effortless and stunning hair transformations.
- Product Highlights: Specially formulated for sensitive skin, free of p-Phenylenediamine, enriched with natural seaweed extracts for nourishment, hypoallergenic, and exceptional coverage for dark hair shades.
- p-Phenylenediamine, a core ingredient in traditional hair dye creams for coloration and long-lasting results, is classified by the World Health Organization as a Group 3 carcinogen. Leveraging our strong research and development capabilities, this product achieves outstanding hair coloring without the addition of p-Phenylenediamine. Even without this compound, it creates vibrant and trendy colors. Furthermore, by eliminating potential allergens like p-Phenylenediamine and introducing natural ingredients such as seaweed extracts, it offers a low-allergy effect.
- The Deep-Sea Seaweed dye delivers highly remarkable coloring effects, offering superior coverage for dark hair shades. If you previously had a deep hair color and are looking for a change, this product is highly recommended for its flawless coverage of the previous color. It boasts strong color coverage and long-lasting, natural results.
- The product's name reflects its inclusion of seaweed extracts, a plant-based nourishing ingredient. Seaweed is rich in iodine, arginine, cysteine, polysaccharides, and alginic acid, which provide benefits such as protecting hair elasticity, regulating oil secretion, moisturizing, and antiviral properties. In addition to various seaweed extracts, it also contains hydrolyzed wheat protein, ginseng, silk protein, and other natural nourishing ingredients, all with remarkable effects.

# 300ml Savol Anti-Hair Loss Shampoo

1, Traditional Oriental Herbal Essence Formula, enriched with extracts from *Cephalotaxus fortunei* leaves, Ginseng root, and *Polygonum multiflorum* root, combines preventive and nourishing properties, revitalizing for a renewed vitality.

2. Free from ginger and alcohol, it is gentle and non-irritating. Provides a mild cleansing for the hair and scalp, effectively regulating excessive sebum secretion, preventing sebum buildup within the hair follicles. This helps alleviate scalp pressure, promoting robust hair roots and preventing hair loss.

3. Enhances follicular nutrition supply, enabling more effective nutrient absorption, and fostering the healthy growth of follicles. Improves the condition of atrophied follicles, reigniting their vitality.

500ml Silk Essence Lock Color  
Shampoo (Dry Hair Type, Oily  
Hair Type, Anti-Dandruff)

# Product Description

- Introducing Savol Hair Color Fading-Preventing Shampoo, a premium hair care product designed to maintain and protect the color of treated hair.
- Key Features:
  1. **Advanced Silk Protein Formula:** This product incorporates an innovative formula enriched with advanced silk protein and a variety of precious botanical extracts.
  2. **Easy Hair Absorption:** It is readily absorbed by the hair, promoting noticeable effects in hair repair, scalp nourishment, and improved microcirculation.
  3. **Effective Color Preservation:** This shampoo stabilizes and reduces damage and loss of hair pigments, nurturing the natural melanin in hair, which effectively reduces color fading after dyeing—commonly known as color fading prevention in English.
  4. **Gentle and Effective Cleansing:** It generates creamy and dense lather, offering a mild yet thorough cleaning experience that doesn't harm the scalp. As consumers wash their hair, it simultaneously nourishes the scalp and locks in the hair color, achieving a three-in-one effect—saving time and ensuring efficiency.
- This product is available in a 500ml size and comes in three formulations, catering to different skin types: oily, dry, and anti-dandruff.

# Product Description

- Remarkable Nourishing: This shampoo provides deep nourishment to your hair, leaving it soft, silky, and manageable.
- Formulated with Ultrafine Powder of Silk and Rare Oriental Plants: Enriched with ultrafine silk powder and extracts from rare oriental plants, it nourishes your scalp and hair roots, promoting overall hair health.
- Repairs Perm and Air-Drying Damaged Hair: If your hair has been damaged by perming or air-drying, this shampoo can help repair and revitalize it, leaving it looking and feeling healthier.
- Prevents Hair Color Fading Perfectly: Designed to prevent your hair color from fading, it helps maintain the vibrancy of your color-treated hair, ensuring it stays looking fresh and beautiful.
- This shampoo is suitable for all hair types and meets international quality standards with certifications such as ISO 9001, ISO 14001, ISO 22716, and GMPC. It comes in a convenient 500mL plastic bottle, making it suitable for both professional salon use and home use.

# Product Description

- Key Features:
- Breakthrough Innovative Technology: This high-end hair care product is also the result of over a decade of research and development at our Eastern Silk Essence Research Center, led by Zhang Qing, our chief engineer, who is one of the drafters of national standards for shampoos and hair conditioners.
- Silk Protein: Silk essence features a protein structure similar to human skin and hair, ensuring effective absorption by the body. It offers noticeable effects in improving scalp microcirculation and promoting hair follicle growth.
- Hyaluronic Acid: Hyaluronic acid, also known as hyaluronan, is a valuable antioxidant and anti-aging element. Products containing hyaluronic acid are typically priced in the thousands, such as Shiseido's Vital Perfection series. This compound is naturally produced by the human body but its production decreases with age, leading to various hair and scalp problems.
- Hydrating and Nourishing: This product thoroughly nourishes the scalp, effectively addressing scalp issues, promoting hair follicle growth, and providing a natural gloss and silky smoothness to the hair.
- This product is available in a 250ml size.

# 200ml Silk Protein Elasticity Essence (Elastic Moisturizing, Elastic Pulling, Elastic Styling)

1. Silk protein extract deeply moisturizes split ends and frizzy hair, maintaining the hair's moisture balance, leaving it more lustrous, smoother, and more elastic.
2. Advanced hydrolysis technology significantly improves the absorption rate of nutrients. Hydrolyzed wheat protein, containing highly moisturizing and elastic vitality factors, forms a styling film on the hair surface, allowing the hair to maintain a spring-like curl effect.

# Product Description

- Introducing our all-plant hypoallergenic hair wax, specially formulated for men seeking ultimate style and care. With three different formulas to choose from, we have options to cater to all your hair styling needs.
- Our first formula is the Flexible Wax, designed to provide a medium hold, allowing you to style your hair in any desired shape or texture. It is perfect for those who prefer a versatile look that can be easily restyled throughout the day.
- For those who want extreme and long-lasting hold, we have the Extreme Styling Wax. This formula offers a strong hold that will keep your hair in place, even in the most challenging weather conditions. Whether you're going for a sleek and polished look or a messy bedhead style, this wax will deliver.
- Our third formula is the Men's Hair Oil, a lightweight and non-greasy option for those who prefer a more natural and effortless look. This oil provides a subtle shine while nourishing your hair, leaving it soft and manageable throughout the day.
- What sets our hair wax apart is its all-plant ingredients. We believe in the power of nature, which is why our wax is free from harsh chemicals such as silicone, ammonia, parabens, alcohol, sulfates, and formaldehyde. With our hypoallergenic formula, your scalp will be protected from irritation, making it suitable for even the most sensitive skin.
- Additionally, our hair wax is fast-drying, allowing you to style your hair in no time. Say goodbye to sticky and tacky hair products that take forever to set.
- Experience the ultimate combination of style and care with our all-plant hypoallergenic hair wax. Unleash your creativity while keeping your hair healthy and happy.
